## Secretariat Assistant / Auditor Exam 1-10-2007

1.	Rani Lakshmi Bai, the fiery Queen of Jhansi, also known as the Rani of Jhasi, is a great nationalist heroine of the first war of Indian freedom and a symbol of resistance to the British rule in India. She died in 1858 fighting the British. What was her original name given by her parents?						
	(a) Alakananda (b) Sarada (c) Manikamika (d) Aparna						
2.	The Gayatri Mantra is the most revered Vedic Mantra in Hinduism. Which Vedic sage is considered as the autho of Gayatri Mantra?						
	(a) Sage Viswamitra (b) Sage Agasthya (c) Sage Angiras (d) Sage Kashyapa						
3.	Name the year in which the decimal system was in the modern state of:						
	(a) 1960 (b) 1959 (c) 1958 (d) 1957						
4,	In the great war of Kalinga in 260 BC, the Magadha king Ashoka's forewore violence and accepted Buddhism. The major portion of the Kalinga Kingdom was in the modern state of:  (a) Orissa  (b) Andhra Pradesh (c) Bihar						
	(d) Madhya Pradesh						
5.	Which was the South Indian Dynasty that established its kingdom with it capital at Kanchipuram in the 4th century and reigned the northern parts of Tamil region for about six hundred years?						
	(a) Chera Dynasty (b) Pallava Dynasty (c) Pandya Dynasty (d) Chola						
6.	Razia Sultana (Razia Sultan) was the only woman monarch who ruled Delhi. Her rule, lasted only for your years, and						
	following a revolt by the city's lasted only for your years, and following a revolt by the city's nobles she was killed When did she ascend the throne of Delhi?						
	(a) A.D. 1326 (b) A.D. 1236 (c) A.D. 1623 (d) 1363						
7.	The dispute over the Himalyan border in Aksai Chin between the People's Republic of China and India triggered the Sino the Sino-Indian Border War. This war began in:						
	(a) September 1962 (b) November 1964 (c) July 1623 (d) June 1968						
8.	Among the following former Portuguese colonies in India Alrich one is an island? (a) Goa (b)  Diu (c) Daman (d) Dadra						
9.	Vellore Mutiny was the first instance of mutiny of 1857 by nearly half a century. When did it take place?						
	(a) May 10, 1806 (b) June 8, 1808						
	(c) September 6, 1807 (d) December 24, 1805						
10.	Vijayanagara empire once extended over the most of the Peninsular India. It is named after its capital city Vijayanagara. As a result of defeat at the hands of an altiance of sultanates, the capital was brutally razed and looted. Where are the impressive ruins of this historic city found today?						
	(a) Hampi in Karnataka (b) Tirupati in Andhra Pradesh						
	(c) Tanjavur in Tamil Nada (d) Vijayawada in Andhra Pradesh						
11.	Velakali is a spectacular rhual and martial folk are of Kerala. Where did this art form take shape in Kerala?						
	(a) Vadakara (b) Edappally (c) Kodungalloor (d) Ambalapuzha						
12.	The first Keralite who become a member of the Central Cabinet and served twice as Finance Minister						
	(a) A.K. Antony (b) K. Karunakaran						
	(c) Krishna Kumar (d) Dr. John Mathai						
13.	Vembanad lake is the largest lake in Kerala. Which among the following districts does not border this lake?						
	(a) Alappuzha (b) Kollam (c) Kottayam (d) Ernakulam						
14.	Which is the district last formed in Kerala?						
	(a) Malappuram (b) Pathanamthitta (c) Kasargod (d) Wayanad						
15.	Which region in Kerala is famous for its natural sandalwood forests?						
	(a) Nenmara (b) Peermed (c) Marayoor (d) Mennachil						
16.	Among the following districts of Kerala which one shares its border both with Kamataka and Tamil Nadu?						
	(a) Wayanad (b) Palakkad (c) Kannur (d) Malappuram						
17.	The Central Tuber Crops Research Institute in Kerala is located at Sreekaryam, Thiruvananthapuram. Where is the headquarters of Central Plantation Crops research Institute located in Kerala?						
	(a) Palode (b) Nileswaram (c) Kayakulam (d) Kasargod						
18.	During the British rule which river in Kerala was nicknamed as English Channel?  (a) Chalakkudi river (b) Ponnani river (c) Mahe river (d) Karamana river						

(a) October 3rd 1799 (b) June 5th 1756 (c) March 7th 1794 (d) January 3rd 1750 (2) What is the density of population of Kerala according to 2001 Census? (a) 917 persons/square m (b) 819 persons (c) 864 persons/square m (c) 864 persons/square m (d) 989 persons 21. The term 'light year' is a unit employed in measuring: (a) intensity of light (b) distance (c) speed of light (d) time 22. Vinegar is acidic in nature because of the presence of: (a) citric acid (b) acetic acid (c) hydrochloric acid (d) tartariacid 23. We study viruses because they cause any infections diease. Which of the following diseases is not a viral disease? (a) influenza (b) measles (c) cholera (d) small pox  24. Which one of the following characteristics is absent in a computer, how much sophisticated it may be? (a) High speed (b) Accuracy (c) Prefetemency (d) Intelligence 25. Isotopes of an elements contain the same number of: (a) neutrons and protons but different number of electrons (c) protons but different number of protons (d) neutrons and electrons but different number of protons (d) neutrons and electrons but different number of protons (e) Tropic of Capricon (2.35°S) (d) Tropic of Cancer (24°S)  26. At which location at the surface of the arth would an observer find the freatest force due to the Earth's gravity? (a) Equator (b) Meteor (c) Asteroid (d) Meteroite (c) Tropic of Capricon (2.35°S) (d) Tropic of Cancer (24°S)  27. Which is the correct scientific name applied for a "shooting as a continue of the following figures is the closest to the practite schemated age of the earth? (a) 3.25 billion years (3.25 × 10° years) (b) 4.55 billion years (3.25 × 10° years) (c) 2.95 billion years (3.25 × 10° years) (d) 5.55 billion years (3.55 × 10° years) (e) 2.95 billion years (3.25 × 10° years) (f) 4.55 billion years (3.25 × 10° years) (g) 2.95 billion years (3.25 × 10° years) (g) 3.25 billion years (3.25 × 10° years) (g) 3.25 billion years (3.25 × 10° years) (g) 4.55 billion years (3.55 × 10° years) (g) 4.55 billion years (3.55 × 10° years)	19.		manabahaswamy temple of Thiruvananthapuram, and delivered his new ervant of the deity. When did this event take place?					
20. What is the density of population of Kerala according to 2001 Census?  (a) 917 persons/square km (b) 819 persons/square km (c) 864 persons/square km (d) 989 persons  21. The term 'light year' is a unit employed in measuring: (a) intensity of light (b) distance (c) speed of light (d) time  22. Vinegar is acidic in nature because of the presence of: (a) citric acid (b) accite acid (c) hydrochloric acid (d) tariari acid  23. We study viruses because they cause any infections diease. Which of the following diseases is not a viral disease? (a) influenza (b) measles (c) cholera (d) small pox  24. Which one of the following characteristics is absent in a computer, how much sophisticated it may be? (a) High speed (b) Accuracy (c) Prefectmenory (d) Intelligence  25. Isotopes of an elements contain the same number of: (a) neutrons and protons (b) neutrons and protons but different number of electrons (c) protons but different number of neutrons (d) neutrons and electrons but different number of protons  26. At which location at the surface of the earth would an observer find the accuest force due to the Earth's gravity? (a) Equator (b) Norrh pole (c) Tropic of Capricon (2.35'S) (d) Tropic of Cancer (2.35'N)  27. Which is the correct scientific name applied for a 'shooting star' (a) Comet (b) Meteor (c) Asteroid (d) Meteroite  28. Which type of mirror is used as a 'rear-view' mirror in venicles? (a) Plane (b) Convex (c) Conche (d) Oval  29. Based on extensic and detailed scientific evidence, apologists have determined the age of the Earth which one of the following figures is the closest to the pracety estimated age of the earth? (a) 3.25 billion years (2.55 × 10' years) (c) 2.95 billion years (2.55 × 10' years) (d) 4.55 billion years (2.55 × 10' years) (e) 3.25 billion years (2.55 × 10' years) (f) Mananadir (d) Krishna  31. This mineral extensively found in Accrala is a primary ore of several rare earth metals most notably thorium, cerium and lanthanum' Name the sun peral which this statement refers to: (a) Inimite (		(a) October 3rd 1799	(b) June 5th 1756					
(a) 917 persons/square km (b) 819 persons/square km (c) 864 persons/square (d) 989 persons (d) intensity of light (b) distance (c) speed of light (d) time (d) intensity of light (b) distance (e) speed of light (d) time (d) intensity of light (b) distance (e) perdochloric acid (d) tartari acid (e) Intensity of light (b) distance (f) hydrochloric acid (d) tartari acid (d) tartari acid (e) hydrochloric acid (d) tartari acid (d) sacall pox (e) cholera (d) small pox (e) the following diseases is not a viral disease? (a) influenza (b) measles (c) cholera (d) small pox (d) heteligence (e) Prefetrmemory (d) Intelligence (e) Prefetrmemory (d) Intelligence (e) neutrons and protons (f) neutrons and protons (g) neutrons and protons (g) neutrons and protons but different number of electrons (e) protons but different number of neutrons (d) neutrons and electrons but different number of protons (d) neutrons and electrons but different number of protons (d) neutrons and electrons but different number of protons (e) Protons but different number of protons (f) protons but different number of protons (g) Equator (h) North pole (e) Tropic of Capricon (2.35'S) (d) Tropic of Cancer (2.5 'B) (d) Tropic of Cancer (2.5 'B) (e) Tropic of Capricon (2.35'S) (f) Tropic of Cancer (2.5 'B) (g) Plane (g) Concert (g) Asteroid (g) Plane (h) Convex (c) Concert (g) Asteroid (g) Plane (h) Convex (c) Concert (g) Asteroid (g) Sasad on extensis and detailed scientific evidence, apologists have determined the age of the Earth which one of the following figures is the closest to the procept estimated age of the earth? (a) 3.25 billion years (3.25 × 10' years) (c) 2.95 billion years (3.25 × 10' years) (e) 3.55 billion years (2.95 × 10' years) (e) 3.55 billion years (2.95 × 10' years) (e) 4.55 billion years (2.95 × 10' years) (e) 4.55 billion years (2.65 × 10' years) (f) 4.55 billion years (2.65 × 10' years) (g) 4.55 billion years		(c) March 7th 1794	(d) January 3rd 1750					
(c) 864 persons/square (d) 989 persons  21. The term 'lighty year' is a unit employed in measuring: (a) intensity of light (b) distance (c) speed of light (d) time  22. Vinegar is acidic in nature because of the presence of: (a) citric acid (b) acetic acid (c) hydrochloric acid (d) tarrari acid  23. We study viruses because they cause any infections diease. Which of the following diseases is not a viral disease?  (a) influenza (b) measles (c) cholera (d) small pox  24. Which one of the following characteristics is absent in a computer, how much sophisticated it may be? (a) High speed (b) Accuracy (c) Prefectmenory (d) Intelligence  25. Isotopes of an elements contain the same number of: (a) neutrons and protons but different number of electrons (c) protons but different number of neutrons (d) neutrons and electrons but different number of protons  26. At which location at the surface of the earth would an observer find the acets of the Earth's gravity? (a) Equator (a) Equator (b) North pole (c) Tropic of Capricon (2.35'S) (d) Tropic of Cancer (24.5'K)  27. Which is the correct scientific name applied for a 'shooting star') (a) Comet (b) Meteor (c) Asteroid (d) Meteroite  28. Which type of mirror is used as a 'rear-view' mirror in valueles? (a) Plane (b) Convex (c) Concery (d) Oval  29. Based on extensic and detailed scientific evidences goologists have determined the age of the Earth which one of the following figures is the closest to the present esthmated age of the earth? (a) 2.25 billion years (3.25 × 10' years) (b) 4.55 billion years (5.55 × 10' years) (c) 2.95 billion years (5.55 × 10' years) (d) 5.55 billion years (5.55 × 10' years) (e) 2.95 billion years (5.55 × 10' years) (f) Mahanadi (d) Krishna  31. While the river Kaward (Sauvery) is nicknamed "Dakshina Ganga" anther river of South India is nicknamed "Vriddha Ganga" (b) Janumana - Agra (c) Hugli - Kolkata (d) Mahanadi (d) Krishna  32. In the following pairs of crites and their associated rivers which pairs is NOT correct? (a) Jinelmen. Srinagar (b)	20.	What is the density of population of Ke	rala according to 2001 Census?					
(c) 864 persons/square (d) 989 persons  1. The term 'lighty ear' is a unit employed in measuring: (a) intensity of light (b) distance (c) speed of light (d) time  2. Vinegar is acidic in nature because of the presence of: (a) citric acid (b) acetic acid (c) chydrochloric acid (d) tarrari acid  2. We study viruses because they cause any infections diease. Which of the following diseases is not a viral disease?  (a) influenza (b) measles (c) cholera (d) small pox  24. Which one of the following characteristics is absent in a computer, how much sophisticated it may be? (a) High speed (b) Accuracy (c) Prefectmentory (d) Intelligence  1. Intelligence			11/4 T ( 14/1 ) T ( 17/1 ) T ( 17					
21. The term 'light year' is a unit employed in measuring: (a) intensity of light (b) distance (c) speed of light (d) time 2. Vinegar is acidic in nature because of the presence of: (a) citric acid (b) acetic acid (c) hydrochloric acid (d) tartari acid 3. We study viruses because they cause any infections diease. Which of the following diseases is not a viral disease? (a) influenza (b) measles (c) cholera (d) small pox (a) High speed (b) Accuracy (c) Prefet memory (d) Intelligence 3. Isotopes of an elements contain the same number of: (a) neutrons and protons but different number of electrons (b) neutrons and protons but different number of protons (c) protons but different number of neutrons (d) neutrons and electrons but different number of protons  26. At which location at the surface of the earth would an observer find the acets force due to the Earth's gravity? (a) Equator (b) North pole (c) Tropic of Capricon (2.35'S) (d) Tropic of Caneer (24.5'N)  27. Which is the correct scientific name applied for a 'shooting star' (a) Conet (b) Meteor (c) Asteroid (d) Meteroite  Which type of mirror is used as a 'rear-view' mirror inventices? (a) Plane (b) Convex (c) Conet (d) Oval  28. Based on extensic and detailed scientific evidence, golologists have determined the age of the Earth which one of the following figures is the closest to the prescut estimated age of the earth? (a) 3.25 billion years (3.25 × 10' years) (b) 4.55 billion years (5.55 × 10' years) (c) 2.95 billion years (5.55 × 10' years) (d) 5.55 billion years (5.55 × 10' years) (e) 2.95 billion years (5.55 × 10' years) (f) 3.55 billion years (5.55 × 10' years) (g) 2.95 billion years (5.65 × 10' years) (g) 3.75 billion years (5.65 × 10' years) (g) 4.75 billion years								
(a) intensity of light (b) distance (c) speed of light (d) time  22. Vinegar is acidic in nature because of the presence of: (a) citric acid (b) acetic acid (c) hydrochloric acid (d) tartari acid  23. We study viruses because they cause any infections diease. Which of the following diseases is not a viral disease?  (a) influenza (b) measles (c) cholera (d) small pox  24. Which one of the following characteristics is absent in a computer, how much sophisticated it may be? (a) High speed (b) Accuracy (c) Prefectmenory (d) Intelligence  25. Isotopes of an elements contain the same number of: (a) neutrons and protons (b) neutrons and protons (c) protons but different number of electrons (c) protons but different number of protons  26. At which location at the surface of the earth would an observer find the acetuest force due to the Earth's gravity? (a) Equator (b) North pole (c) Tropic of Capricon (2.35'S) (d) Tropic of Cancer (2.6'K)  27. Which is the correct scientific name applied for a 'Shooting sfarg' (a) Comet (b) Meteor (c) Asteroid (d) Meteroite  28. Which type of mirror is used as 'rear-view' mirror in studes? (a) Plane (b) Convex (c) Congel (d) Oval  29. Based on extensic and detailed scientific evidence goologists have determined the age of the Earth which one of the following figures is the closest to the present eshmated age of the earth? (a) 3.25 billion years (3.25 × 10' years) (b) 4.55 billion years (3.55 × 10' years) (c) 2.95 billion years (3.55 × 10' years) (d) 5.55 billion years (5.55 × 10' years) (e) 4.55 billion years (3.55 × 10' years) (f) 4.55 billion years (3.55 × 10' years) (g) 2.95 billion years (3.55 × 10' years) (g) 4.55 billion years (3.55 × 10' years) (g) 4.50 billion years (3.55 × 10' years) (g) 4.50 billion years (3.55 × 10' years) (g)	21.							
22. Vinegar is acidic in nature because of the presence of:  (a) citric acid (b) acetic acid (c) hydrochloric acid (d) tartari acid  23. We study viruses because they cause any infections diease. Which of the following diseases is not a viral disease?  (a) influenza (b) measles (c) cholera (d) small pox  24. Which one of the following characteristics is absent in a computer, how much sophisticated it may be?  (a) High speed (b) Accuracy (c) Prefectmemory (d) Intelligence  25. Isotopes of an elements contain the same number of:  (a) neutrons and protons (b) neutrons and protons but different number of electrons (c) protons but different number of protons  26. At which location at the surface of the earth would an observer find the secrets force due to the Earth's gravity?  (a) Equator (b) North pole (c) Tropic of Capricon (2.35°S) (d) Tropic of Cancer (2.5°N)  27. Which is the correct scientific name applied for a 'shooting star'.  (a) Comet (b) Meteor (c) Asteroid (d) Meteroite  28. Which type of mirror is used as a 'rear-view' mirror in valides?  (a) Plane (b) Convex (c) Concive (d) Oval  29. Based on extensic and detailed scientific evidence, asologists have determined the age of the Earth which one of the following figures is the closest to the procept testhmated age of the earth?  (a) 3.25 billion years (3.25 × 10° years)  (b) 4.55 billion years (3.25 × 10° years)  (c) 2.95 billion years (3.55 × 10° years)  (d) 5.55 billion years (3.55 × 10° years)  (e) 2.95 billion years (3.55 × 10° years)  (f) Mich river Naw (d) Gauvery) is nicknamed "Dakshina Ganga" anther river of South India is nicknamed "Vriddha Ganga", Which is that river?  (a) Ilminite (b) Zeroon (c) Monazite (d) Silimanite  (b) Mahanadi - Vijayawada  (c) Hugli- Kolkata (b) Godavari (c) Mahanadi (d) Krishna  In the following pairs of cities and their associated rivers which pairs is NOT correct?  (a) Jhelum - Srinagar (b) Jamunau - Agra (c) Hugli- Kolkata (b) Godavari (c) Mahanadi - Vijayawada  (c) Hugli- Kolkata (b) Godavari (c) Mahanadi (d) Krishn		그래, 그 시간하다 아이를 들었다면서, 그렇게 하지 않는 사이를 하나 취임하다.						
(a) citric acid (b) acetic acid (c) hydrochloric acid (d) tartari acid  23. We study viruses because they cause any infections diease. Which of the following diseases is not a viral disease?  (a) influenza (b) measles (c) cholera (d) small pox  24. Which one of the following characteristics is absent in a computer, how much sophisticated it may be?  (a) High speed (b) Accuracy (c) Prefertmenory (d) Intelligence  25. Isotopes of an elements contain the same number of: (a) neutrons and protons (b) neutrons and protons but different number of electrons (c) protons but different number of neutrons (d) neutrons and electrons but different number of protons  26. At which location at the surface of the earth would an observer find the secretist force due to the Earth's gravity? (a) Equator (b) North pole (c) Tropic of Capricon (2.35°S) (d) Tropic of Cancer (2.5°N)  27. Which is the correct scientific name applied for a 'shooting sor' (a) Comet (b) Meteor (c) Asteroid (d) Meteroite  28. Which type of mirror is used as a 'rear-view' mirror in valides? (a) Plane (b) Convex (c) Concay (d) Oval  29. Based on extensic and detailed scientific evidence, go ologists have determined the age of the Earth which one of the following figures is the closest to the procept estimated age of the earth? (a) 3.25 billion years (3.25 × 10° years) (c) 2.95 billion years (3.25 × 10° years) (d) 5.55 billion years (3.25 × 10° years) (e) 2.95 billion years (3.25 × 10° years) (f) 3.55 billion years (5.55 × 10° years) (g) 4.55 billion years (5.55 × 10	22							
disease?  (a) influenza (b) measles (c) cholera (d) small pox  Which one of the following characteristics is absent in a computer, how much sophisticated it may be?  (a) High speed (b) Accuracy (c) Prefettmentory (d) Intelligence  Isotopes of an elements contain the same number of:  (a) neutrons and protons (b) neutrons and protons but different number of electrons (c) protons but different number of neutrons (d) neutrons and electrons but different number of protons  At which location at the surface of the earth would an observer find the secrets force due to the Earth's gravity?  (a) Equator (b) North pole (c) Tropic of Capricon (2.35°S) (d) Tropic of Cancer (2.45°N)  Which is the correct scientific name applied for a 'shooting stat'.  (a) Comet (b) Meteor (c) Asteroid (d) Meteroite  Which type of mirror is used as a 'rear-view' mirror in vehicles?  (a) Plane (b) Convex (c) Concie (d) Oval  Based on extensic and detailed scientific evidence sologists have determined the age of the Earth which one of the following figures is the closest to the present estimated age of the earth?  (a) 3.25 billion years (3.25 × 10° years)  (b) 4.55 billion years (4.55 × 10° years)  (c) 2.95 billion years (3.55 × 10° years)  (d) 5.55 billion years (5.55 × 10° years)  (d) 5.55 billion years (6.00 aucry) is nickanamed "Dakshina Ganga" amther river of South India is nicknamed "Vriddha Ganga". Which is that river?  (a) Immine (b) Zaroon (c) Manaaria (d) Krishna  In the following pairs of cities and their associated rivers which pairs is NOT correct?  (a) Jhelum - Srinagar (b) Jamunau - Agra  (c) Hugli - Kolkata (d) Mahanadi - Vijayawada  Cherrapunji, the world's wettest place, is located in:  (a) Arunachal Pradesh (b) Meghalaya  (b) Assam (d) Maghanadi - Vijayawada  Find the incorrect pair among the following  (a) Tanjavur - Brihadeeswara Temple (b) Amritsar - Golden Temple  (c) Puri-Konark Temple  (d) Maghalava (c) Jaipur (d) Udaipur		그 그래 얼굴하는 1일 경향이 모르는 아들이 가득하는 것 같아.						
24. Which one of the following characteristics is absent in a computer, how much sophisticated it may be?  (a) High speed (b) Accuracy (c) Prefettmenory (d) Intelligence  25. Isotopes of an elements contain the same number of:  (a) neutrons and protons (b) neutrons and protons but different number of electrons (c) protons but different number of neutrons (d) neutrons and electrons but different number of protons  26. At which location at the surface of the earth would an observer find the accusest force due to the Earth's gravity? (a) Equator (b) North pole (c) Tropic of Capricon (2.35'S) (d) Tropic of Cancer (2.5 N)  27. Which is the correct scientific name applied for a 'shooting star's (a) Comet (b) Meteor (c) Asteroid (d) Meteroite  28. Which type of mirror is used as a 'recar-view' mirror in acticles? (a) Plane (b) Convex (c) Conche (d) Oval  29. Based on extensic and detailed scientific evidence gologists have determined the age of the Earth which one of the following figures is the closest to the procept estimated age of the earth? (a) 3.25 billion years (3.25 × 10' years) (b) 4.55 billion years (4.55 × 10' years) (c) 2.95 billion years (4.55 × 10' years) (d) 5.55 billion years (5.55 × 10' years) (d) 5.55 billion years (6.55 × 10' years) (d) 5.55 billion years (6.56 × 10' years) (d) 5.55 billion years (6.56 × 10' years) (e) Inhimite (b) Aron (c) Monazite (d) Slimanite  31. While the river Kawa (Gauvery) is nicknamed "Dakshina Ganga" anther river of South India is nicknamed "Vriddha Ganga". Which is that river? (a) Tungabadra (b) Godavari (c) Mahanadi (d) Krishna  32. In the following pairs of cities and their associated rivers which pairs is NOT correct? (a) Tungabadra (b) Godavari (c) Mahanadi (d) Krishna  33. Cherrapunji, the world's wettest place, is located in: (a) Arunachal Pradesh (b) Magaland  34. Find the incorrect pair among the following (d) Arga-Konark Temple (b) Puri-Konark Temple (d) Agra-Konark Temple (c) Puri-Konark Temple, (d) Agra-Konark Temple (d) Agra-Konark Temple (e) Puri-Konark Temp	23,	We study viruses because they cause						
24. Which one of the following characteristics is absent in a computer, how much sophisticated it may be?  (a) High speed (b) Accuracy (c) Prefettmentory (d) Intelligence  (3) High speed (b) Accuracy (c) Prefettmentory (d) Intelligence  (a) High speed (b) Accuracy (c) Prefettmentory (d) Intelligence  (a) Broutrons and protons but different number of electrons (b) neutrons and protons but different number of protons (d) neutrons and electrons but different number of protons (d) neutrons and electrons but different number of protons (d) neutrons and electrons but different number of protons (e) Tropic of Capricon (2.35'S) (d) Tropic of Cancer (2.5'N)  27. Which is the correct scientific name applied for a 'shooting star' (a) Comet (b) Meteor (c) Asteroid (d) Meteroite  28. Which type of mirror is used as a 'rear-view' mirror in a clickes? (a) Plane (b) Convex (c) Conche (d) Oval  29. Based on extensic and detailed scientific evidence golologists have determined the age of the Earth which one of the following figures is the closest to the prosecut estimated age of the earth? (a) 3.25 billion years (3.25 × 10° years) (b) 4.55 billion years (4.55 × 10° years) (c) 2.95 billion years (4.55 × 10° years) (d) 5.55 billion years (5.55 × 10° years) (d) 5.55 billion years (6.55 × 10° years) (d) 5.55 billion years (6.56 × 10° years) (d) 5.55 billion years (6.56 × 10° years) (e) High - Kolkata (b) Godavari (c) Monazite (d) Silinanite (d) Silinanite (d) Silinanite (e) Tringal (b) Godavari (c) Mahanadi (d) Krishna (d) Intelligence (e) Hugh - Kolkata (d) Mahanadi - Vijayawada (f) Arunachal Pradesh (b) Meghalaya (c) Assam (d) Nagaland (e) Hamiltonian Rajasthan. It is located at an elevation of 1220 meters. It is also the home to a number of famous Jain temples. The world headquarters of the Brahma Kumari order of lady renunciates is also located here. Which is that place? (a) Jaisalmer (b) Mount abu (c) Jaipur (d) Udaipur		(a) influenza (b) measles	(c) cholera (d) small pox					
(a) High speed (b) Accuracy (c) Prefectmemory (d) Intelligence  25. Isotopes of an elements contain the same number of: (a) neutrons and protons (b) neutrons and protons but different number of electrons (c) protons but different number of neutrons (d) neutrons and electrons but different number of protons  26. At which location at the surface of the earth would an observer find the accusest force due to the Earth's gravity? (a) Equator (b) North pole (c) Tropic of Capricon (2.35°S) (d) Tropic of Cancer (25 °N)  27. Which is the correct scientific name applied for a 'shooting stat'' (a) Comet (b) Meteor (c) Asteroid (d) Meteroite  28. Which type of mirror is used as a 'rear-view' mirror in yelicles? (a) Plane (b) Convex (c) Conche (d) Oval  29. Based on extensic and detailed scientific evidence prologists have determined the age of the Earth which one of the following figures is the closest to the present estimated age of the earth? (a) 3.25 billion years (3.25 × 10° years) (b) 4.55 billion years (3.55 × 10° years) (c) 2.95 billion years (3.55 × 10° years) (d) 5.55 billion years (5.55 × 10° years) (d) 5.55 billion years (3.55 × 10° years) (e) 2.95 billion years (3.55 × 10° years) (f) 4.50 billion years (4.55 × 10° years) (g) This mineral extensively found in Kerala is a primary ore of several rare earth metals most notably thorium, cerium and lanthanum' Name the inheral which this statement refers to: (a) Ilminite (a) Equation (b) Godavari (b) Monazite (d) Minamite (d) Krishna  31. In the following pairs of cities and their associated rivers which pairs is NOT correct? (a) Tungabadra (b) Godavari (c) Mahanadi (d) Krishna  32. In the following pairs of cities and their associated rivers which pairs is NOT correct? (a) Hugli - Kolkata (d) Mahanadi (d) Majanada  33. Cherrapunji, the world's wettest place, is located in: (a) Arunachal Pradesh (b) Mogaland  34. Find the incorrect pair among t	24.	Which one of the following characterist						
25. Isotopes of an elements contain the same number of: (a) neutrons and protons (b) neutrons and protons but different number of electrons (c) protons but different number of neutrons (d) neutrons and electrons but different number of protons 26. At which location at the surface of the earth would an observer find the greatest force due to the Earth's gravity? (a) Equator (b) North pole (c) Tropic of Capricon (2.35'S) (d) Tropic of Cancer (2.56'N)  27. Which is the correct scientific name applied for a 'shooting stat') (a) Comet (b) Meteor (c) Asteroid (d) Meteroite  28. Which type of mirror is used as a 'rear-view 'mirror in welicles? (a) Plane (b) Convex (c) Conche (d) Oval  29. Based on extensic and detailed scientific evidence gologists have determined the age of the Earth which one of the following figures is the closest to the present estimated age of the earth? (a) 3.25 billion years (3.25 × 10° years) (b) 4.55 billion years (2.95 × 10° years) (c) 2.95 billion years (2.95 × 10° years) (d) 5.55 billion years (2.95 × 10° years) (d) 5.55 billion years (3.55 × 10° years) (e) 2.95 billion years (3.55 × 10° years) (d) 5.55 billion years (5.55 × 10° years) (e) 3.10 mineral extensively found in Kerala is a primary ore of several rare earth metals most notably thorium, cerium and lanthanum' Name the uniforal which this statement refers to: (a) Ilminite (b) Airbon (c) Monazite (d) Silinanite  31. While the river Kaveji (Gauvery) is nicknamed "Dakshina Ganga" anther river of South India is nicknamed "Vriddha Ganga". Which is that river? (a) Tungabadra (b) Godavari (c) Mahanadi (d) Krishna (e) Hugli-Kolkata (d) Mahanadi (d) Krishna (e) Hugli-Kolkata (f) Mahanadi (d) Krishna (e) Hugli-Kolkata (f) Mahanadi (h) Magaland  34. Find the incorrect pair among the following (a) Tanjavur - Brihadeeswara Temple (b) Agra-Konark Temple (c) Puri-Konark Temple (d) Agra-Konark Temple (e) Puri-Konark Temple (f) Agra-Konark Temple (g) Jaisalmer (h) Mount abu (c) Jaipur (d) Udaipur		그는 그녀는 아이라면 얼마나 되는 어느라면 하는 것이 되었다. 아이라는 아이라는 아이가 되었다.
