Direction (51 – 51) : In the passage given below, there are blanks, each preceded by a word given in bold. Every blank has four alternative words given in options (A), (B), (C) and (D). Find the word which best suits the place. If the given word suits the blank, mark 'no correction/change required' as the answer.

Nowadays, globalization's opponents seem increasingly to be drowning out its

defenders. If they get their way, the post-World War II international order – which aimed, often successfully, to advance peace and prosperity through exchange and connection – could well **resemble** (###Q1###). Can globalization be saved?

At first glance, the outlook appears grim. Every aspect of globalization – free trade, free movement of capital, and international migration – is under attack. Leading the charge are **couthy** (###Q2###) forces – from populist political parties to separatist groups to terrorist organizations – whose actions tend to focus more on what they oppose than on what they support.

In Russia and Asia, anti-Western groups are at the forefront of the campaign against globalization. In Europe, populist parties have tended to emphasize their aversion to European integration, with those on the right often also **condemning** (###Q3###)

immigration, while the left denounces rising economic inequality. In Latin America, the enemy seems to be foreign **abetment** (###Q4###) of any kind. In Africa, tribal separatists oppose anyone standing in the way of independence. And in the Middle East, the Islamic State (ISIS) virulently rejects modernity – and targets societies that embrace it. Despite their differences, these groups have one thing in common: a deep hostility toward international structures and interconnectedness (though, of course, a murderous group like ISIS is in a different category from, say, European populists). They do not care that the international order they want to tear down enabled the rapid post-1945 economic growth that liberated billions of developing-country citizens from poverty. All they see are massive, unbending **organisation** (###Q5###) and intolerable inequalities in wealth and income, and they blame globalization.

Direction (71 – 77) : Read the given passage carefully and answer the questions that follow. Certain words are printed in bold to help you locate them while answering some of these.

The Financial Times with a survey concluded that millennials are prioritizing short-term spending over long-term saving. According to one calculation, the average 25-year-old should be saving £800 (or about \$1,146) a month over the next 40 years, in order to retire at 65 with an annual income of £30,000. That piece went viral. For all the wrong reasons. As millennials who responded angrily to the article noted, they're too busy buying groceries or paying rent to even think about being able to have that much money to allocate to a savings account. But ignoring the tone deafness, there is a real problem here.

T Rowe Price recommends that millennials should save about 15% of their incomes for retirement. However, a recent survey found that on average, while they are doing a good job of budgeting and say they have increased their savings in the past 12 months, their actual savings rate is about 8%. Financial planners can puff and huff about results like that. They can argue that millennials don't realize how much they need to save; that they are succumbing to one of those behavioural finance phenomena by failing to appreciate that yes, one day they, too, will be 65 and need a retirement nest egg. For their part, the millennials might well argue that the rest of us simply don't understand their new normal.

It has always been true, and remains true today, that a dollar someone puts aside in a tax-sheltered retirement account when he is 25 years old will be worth much, much more than that same dollar would be if he had set it aside at the age of 50, thanks to the fact that it is sitting there being reinvested, year after year, tax-free. What someone in their 20s loses in absolute wealth, they earn in terms of time. The problem is that there are too many other factors stopping millennials from making that decision to save.

They have got the millennial paradox to contend with.

In 2014, the average college student graduated with \$33,000 of student debt, according to one calculation. Do you want to be one of those students who defaults on her student debt, just in order to have a few extra bucks to put into her retirement account? Really, not a viable solution; those payments have to be kept up, even if it means there's no money for a retirement account. The cost of living is climbing, too, led by rental costs, which hit records in many cities last year. On average, millennials who rent nationwide would have had to spend 30% of their monthly income to their landlords. Health insurance? If your company offers it, odds are it's a benefit that requires you to shoulder a greater portion of the costs of these days. And if you're older than 26, and paying for your own healthcare, you've already discovered that both premiums and deductibles are rising for most policies. Then, there are other expenses like wedding gifts, birthday gifts, parties, clothes, accessories, food bills, transportation, travel or vacations.

Eventually, some of those pressures will **abate** – the student debt will be paid down – and millennials will be earning more. But they will be older, and the value of each dollar they save by that stage will be less. In any event, new financial pressures will arrive on the scene, in the form of children, the need to save for a house, to help out ageing parents. Perhaps there is some creative way to tackle this. To the extent that the cost of obtaining an education means that millennials can't start saving for retirement when it's most advantageous for all of society that they should, maybe there's a way to restructure or postpone debt payments until later in life as long as graduates begin contributing to their retirement accounts.

Direction (93 – 102) : Read the given passage carefully and answer the questions that follow. Certain words are printed in bold to help you locate them while answering some of these.

Cow-free burgers are now all the rage. That's great for California, but rural America is **stuck in a bind**. Technology is **wiping out** traditional jobs, and high-tech training can be hard to come by in towns where livestock outnumber people. Young Americans know this. According to a recent report from the United States Department of Agriculture Economic Research Service, **non-metropolitan communities are greying as they attract retirees and lose new members of the labour force**. Although rural communities are home to 14 percent of the population, they have seen just 4 percent of the employment growth since 2013. Despite this economic pressure, rural America remains one of our nation's most fertile regions, and recent advances in biotechnology are making it easier than ever to sustainably grow new kinds of valuable goods, from biopharmaceuticals to biomaterials. With the right strategic investments, rural America could see a biotech "bloom." A Bio-Belt stretching through middle America must be built to bring new skills and high-paying jobs to communities that desperately need them. This initiative would bolster investment in biotechnology training, education, infrastructure and entrepreneurship in rural areas in order to develop new, sustainable sources of income. The Bio-Belt is about much more than biofuel. Fermentation is an increasingly powerful force for converting sugar and other forms of biomass into value-added goods—all through the rational design of cells that can be sustainably grown wherever land is abundant. Rural biotechnology, like all biotechnology, will require strategic partnerships between business and academia. Agriculture extension schools, which are often located in rural areas, should expand to

deliver research and job training for rural communities. Success will also depend on community colleges and local businesses to provide a pipeline of individuals with the skills needed to work in regional biotech clusters. The government should **incentivise** these partnerships. National laboratories dedicated to biological manufacturing are also needed in rural areas. These could be standalone new labs or expansions of existing facilities. Biotechnology startups could use them as incubators to test their products without having to make a major investment in equipment themselves. At present, this vehicle for commercial success is mostly limited to the coasts. Likewise, access to existing fermentation capacity should expand to those outside of coastal cities. This could be one of the cheapest ways to spread the benefits of biotechnology to more entrepreneurs. Under the Bio-Belt initiative, innovation would grow in rural areas, and biomanufacturing could expand across the country, where land and feedstock are abundant. With new ideas, creative policies, supportive infrastructure and sound investments in biotech research and development, the budding companies will be just the first of many to take root between the coasts of this great nation. As the country thinks about its future manufacturing competitiveness and infrastructure, let's remember this: 21st-century infrastructure is not just roads and bridges. A critical component of our economic growth will be the bioeconomy. Source: <https://www.forbes.com/>

93. What is the central theme of the passage?
- A. The future of biotechnology is bright in the urban America.
 - B. Biotechnology will require a lot of investment to thrive and hence, the possibility of utilising it in the near future is doubtful.
 - C. Strategic investment in biotechnology can reinvigorate rural America and help secure the nation's high-tech competitive advantage.

- D. The skilled labour in biotechnology resides in the cities, thus, the cost of executing biotechnology in the rural areas will be quite high.
- E. None of the above.

94. How would the Bio-Belt be advantageous to the rural communities?
- a) The partnership with local businesses would boost the International business.
 - b) It would provide new skills and jobs to people who badly need them.
 - c) It would strengthen training, education, infrastructure and entrepreneurship with reference to biotechnology in rural areas.

Direction (131 – 135) : Study the following information carefully and answer the questions that follow.

Twelve people are sitting in two parallel rows containing six people each such that they are equidistant from each other. In row 1, A, B, C, D, E and F are sitting facing south. In row 2, P, Q, R, S, T and V are sitting facing north. Therefore, in the given seating arrangement, each member sitting in a row faces another member of the other row. Three persons sit between C and D. Either C or D sits at an extreme end of the line. The one who faces D sits third to the left of R. S faces the one who sits third to the left of A and he cannot sit adjacent to R. The immediate neighbour of Q faces the immediate neighbour of A. Only one person sits between P and T, who is facing the one sitting on the immediate right of E. Neither E nor F faces R. V and Q cannot sit adjacent to each other.

131. Who among the following faces B?

- A. P
- B. Q
- C. T
- D. R
- E. S

132. Who among the following sit at the extreme ends of the rows?

- A. D, Q
- B. T, F
- C. E, S
- D. B, T
- E. F, Q

133. If E is related to P in the same way as C is related to S, which of the following is A related to, following the same pattern?

- A. V
- B. R
- C. Q
- D. T
- E. Can't be determined

134. How many persons are sitting between E and F?

- A. None
- B. One
- C. Two
- D. Three
- E. Four

135. Four of the following five are alike in a certain way based on the given arrangement and so form a group. Which is the one that does not belong to that group?

- A. P – D
- B. Q – A
- C. Q – F
- D. S – B
- E. T – A

51. Ans. A.

The previous sentence talks about globalization's opponents drowning their defenders. The sentence following the blank also mentions 'Can globalization be saved?'. This indicates a possibility of a downfall. Corresponding to that, collapse is the most suitable response. 'Collapse'

refers to a sudden downfall or breakdown.

52. Ans. A.

The passage mention every aspect of globalization – free trade, free movement of capital, and international migration – is under attack by forces ranging from populist political parties to separatist groups to terrorist organizations. This indicates that the forces are of hostile nature which is best implied by the use of the word 'antagonistic'. It refers to showing or feeling active opposition or hostility towards someone or something. Couthy means warm and friendly nature of a person.

Chummy means on friendly terms; friendly.

Pally means having a close, friendly relationship.

Providential means occurring at a favourable time; opportune.

53. Ans. E.

'Condemn' means to express complete disapproval; censure. It is the most suitable response according to the

context of the statement.

Complimentary means expressing a compliment; praising or approving.

Flattering means full of praise and compliments.

~~Absolving, obligating, are (possible)~~
Laudatory means (of speech or writing) expressing praise and commendation.

54. Ans. B.

'Interference' refers to the action of interfering(intervening) or the process of being interfered(intervened) with. The passage is talking about anti-Western groups campaigning against globalization, aversion to European integration by populist parties in Europe and immigration. Corresponding to the context of the statement, 'Interference' is the most suitable response (in relation to foreign activity).

Compaction means the process by which the porosity of a given form of sediment is decreased as a result of its mineral grains being squeezed together by the weight of overlying sediment or by mechanical means.

Facilitation means the act of helping other people to deal with a process or reach an agreement or solution

Compunction means a feeling of guilt or moral scruple that prevents or follows the doing of something bad.

55. Ans. D.

Among the given options, only organisation and institutions seem to fit in. However, 'organisation' is singular while the sentence talks about plural entities. Hence, the most apt response is 'institutions'.

Assimilation means the process of taking in and fully understanding information or ideas.

Distraction means a thing that prevents someone from concentrating on something else

56. Ans. E.

A and F can be connected as it conveys the meaning both grammatically and contextually as well. Sentence "A" ends with "over" which is a preposition and thus it needs an object or an objective clause after it so, "D" and "E" cannot come after "over" as both of them start with a preposition. Hence, "F" will fit which makes the sentence grammatically correct. Contextually as well, we can infer that sentence intends to mention the aim of someone which is to aim and make a particular part of the population as a vote bank without thinking about other Indian citizens.

B and D can be connected since contextually it states that claims and objectives of providing shelter to the minorities in India's neighbourhood in the bill are less in reality than what government claimed in the bill. So contextually a complete meaning can be inferred. As far as grammar is concerned, "claims and objectives" are the nouns which further need a verb or a preposition to complete a meaningful sentence thus, "F and E" are not fit to be added after "claims and objectives". So, the correct pair is B and D. C and E cannot be connected as we may infer something contextually but grammatically it will be incorrect as the first or main clause is in past tense thus the subordinate clause of the sentence cannot be in present and

should be in past. C and E therefore, cannot make a correct sentence.

Thus, option E is the correct answer.

57. Ans. C.

C and D can be joined to form a meaningful as well as a grammatically correct sentence. Sentence "C" states a fact and the effect of it has been shown with the help of sentence D.

A and E cannot be connected as the context of both the sentences are different from each other. In Sentence "A", "congress" refers to a convention or conference is talked about and in sentence E, a political party is being talked about and the context of the sentences is also not aligning to each other. B and F cannot be connected as well as the subject in part F is 'hatred' (singular) for which the verb used is 'are' (plural). This violates sentence verb agreement rule and is thus erroneous. Thus, option C is the correct answer.

58. Ans. B.

In order to form a meaningful and grammatically correct sentence, the two parts of a sentence should connect grammatically and contextually. In the given question, A joins with D to make a correct sentence. B tells about a word that could be used to describe Christmas. The word has been mentioned in F, making B-F a pair. Contextually, C and E could have been joined, if the conjunction "and" had been placed between the verbs "detect and distinguish". Thus, option B is the correct answer.

59. Ans. C.

Option A mentions a person, who can have a certain behaviour, thus, it can pair up with E. Option C must go with D as it explains that lack of fitness is the reason why most players don't play for long. Only these two make sense. The correct answer is option C.

60. Ans. C.

Option A must go with E as it talks about a player who was very good in the early days but doesn't play as well these days. Option C must go with D as it talks about an incident when a cat slipped over a pencil that was lying on the floor. Rest of the option doesn't make sense. Thus, the correct answer is option C.

61. Ans. C.

Refer to the last sentence in the series.

62. Ans. E.

Refer to the last sentence in the series.

63. Ans. A.

Refer to the last sentence in the series.

64. Ans. D.

Refer to the last sentence in the series.

65. Ans. B.

The paragraph is talking about decrease in number of lions in the Gir Forest. The sentence that introduces this topic is option C. So, C comes first. E could also work as an introduction. But, E introduces the topic of 'infighting in the wild' which doesn't match with other sentences in the paragraph. Now, for the next sentence, we need elaboration on the topic introduced in C. F does this perfectly as it gives statistics about the death of lions. Now, an event took place, so we would have consequences. An immediate consequence of the events is that an inquiry was made, as described in A. So, A comes next. So far, our sequence is CFA. The next is D as it is fixed. The remaining two sentences are B & E. E should come after D as both have a common topic of 'infighting'. This leaves for the last. So, the sequence becomes CFADEB.

66. Ans. E.

All the highlighted words are in correct position and no exchange is required. Hence, the correct answer is E.

67. Ans. A.

Partition of India was one particular happening in the history and thus be preceded by singular noun, so the word at A is incorrect. The noun following the phrase "one of the" is always a plural noun, so the word at D is incorrect. Further, it was not the migration that led to "tragic death and displacement". People were displaced in large numbers; hence, it was called migration. The Partition of India on the other hand was an *event*, which had many other aspects other than just migration. So, A & D should be exchanged. Hence, the correct answer is A.

68. Ans. A.

'Prepare', 'engineering' and 'consequences' are placed correctly in the

sentence and need not be interchanged. 'Cope with' is used when some difficult situation is given. Also, 'cope (up) with' is a phrase with which we use a noun. Hence, 'risk' should be interchanged with 'better' in order to make the statement contextually as well as grammatically correct.

69. Ans. D.

The highlighted words have been correctly placed in the sentence. Thus, option D is the correct answer.

70. Ans. E.

The statement explains that if the current situation of economic growth continuous, one million species could go extinct in decades. So, after interchanging 'factoring' with 'continuous' and 'decades' with 'extinct', we get a meaningful statement. Hence, option E is the right answer.

71. Ans. C.

"To contend with" means to have to deal with a difficult or unpleasant situation. Millennials (a word crafted to refer to the generation born between 1980 and 2000) are young people who are between the ages of 20 to 40 years and are fast entering their prime spending years. Growing up in an age of rapid change, they have a set of expectations and priorities that are radically different from those of the older generations.

The passage talks about the importance of saving for the future or retirement. Saving for the future is on the minds of millennials, but many feel overwhelmed and under-prepared. Coupled with rising health care, child care, and housing costs, the economic priority for millennials is to achieve and maintain financial stability instead of saving for the future. They're regularly chastised for failing to save enough for their future.

Millennial paradox refers to the situation where they know "they should be saving £800 (or about \$1,146) a month over the next 40 years, in order to retire at 65 with an annual income of £30,000" but "they're too busy buying groceries or paying rent" and debts "to even think about being able to have that much money to allocate to a savings account." Basically, "the problem is that there are

too many other factors stopping millennials from making that decision to save."

This idea is best described in statement C. Therefore, option C is the apt answer.

72. Ans. E.

Abate is a verb which refers to something unpleasant or severe that become less intense or widespread. In other words, it means to make something less intense.

Option I: Wane refers to a state or feeling which decrease in vigour or extent; become weaker.

Option II: Recede refers to a quality, feeling, or a possibility that gradually diminish.

Option III: Prolong means to extend the duration of something.

'Wane' and 'recede' are synonyms of abate and 'prolong' is antonym of abate. Therefore, option E is the apt answer.

73. Ans. B.

An argument is an expression of opinion that is developed in a passage. Some arguments contain hidden assumptions sometimes intended to subtly bias the reader. An assumption is a belief that the author takes for granted, based on opinion or experience. Assumptions are presented as facts. If the author states an opinion but doesn't supply any supporting details, you should suspect that it is an assumption.

All the statements can be taken as an assumption made by the author in order to support his/her argument, except statement B. The author does not talk about 'small amount' or 'larger amount.' He/she is trying to say that if you're 20 today, and put \$1 aside, and it earns the historical 6.6% return, by the time you're 65, that single dollar will have become \$18.50. But if you put aside the same dollar at 30, by 65 it's only worth \$9.60 – you've lost half of the potential gains. Therefore, option B is the apt answer.

74. Ans. A.

The fourth paragraph says that the cost of living is expensive and it's hard to save for the future. Millennials still have to work hard to continue to support themselves and pay for the necessities and recreational needs they have. The lack of saving culture means they are

spending more on current consumption instead of saving for future consumption. Less accumulation of wealth means less security on their future consumption, which will result in uneven consumption patterns in their life. Thus, this inference properly follows from the statements of facts given in the fourth paragraph. Therefore, option A is the apt answer.

75. Ans. B.

The fourth paragraph says that the most important parts of the economy, like housing, healthcare, education, are getting more expensive. Consequently, it creates an even bigger financial burden for millennials to shoulder. Facing a stark set of financial circumstances, millennials started adulthood with less room for financial mistakes than previous generations. In response, they are managing their money differently.

This situation can either be an excuse for hopelessness, apathy, and retreat, or an opportunity to rise to the occasion, to find a better path, to zig when the world zags – to make the obstacle the way. Many millennials are refinancing student loans, delaying home purchases, and looking for creative ways to earn more money through side hustles. They are taking the latter course. By making these countermoves around the obstacles in the economic landscape, millennials can become more financially savvy, clever or shrewd.

Note that it is based on the idea that many millennials, not all millennials, are becoming financially savvy. One can say that it is based on probability and not true for all. Thereby, this inference is not definitely true in light of the facts given in the fourth paragraph.

Therefore, option B is the apt answer.

76. Ans. D.

The error lies in option D. The correct idiom is 'huff and puff' which means disapproving to complain loudly and express disapproval. Therefore, option D is the apt answer

77. Ans. A.

Option A: Sanguine refers to a piece of writing that is optimistic or positive, especially in an apparently bad or difficult situation.

Option B: Constructive refers to a piece of writing that has or intended to have a useful or beneficial purpose.

Option C: Sarcastic refers to a piece of writing that is marked by the irony in order to mock or convey contempt.

Option D: Satirical refers to a piece of writing in which vices, follies, abuses, and shortcomings are held up to ridicule, ideally with the intent of shaming individuals, corporations, government, or society itself into improvement.

Option E: Inspiring refers to a piece of writing that has the effect of inspiring someone.

"Perhaps there is some creative way to tackle this" shows that the author is positive regarding the whole situation. Among all the options, 'sanguine' is the most suitable. Therefore, option A is the apt answer.

78. Ans. C.

Benefit- an advantage or profit gained from something.

Censure- express severe disapproval of (someone or something), especially in a formal statement.

Respite- a short period of rest or relief from something difficult or unpleasant.

Only "respite" can fit in both the blanks.

79. Ans. D.

Mundane means by the practical, transitory, and ordinary

ii) of, relating to, or characteristic of the world; earthly

In the first statement, mundane as in ordinary affairs/situations fits in while in the second statement, mundane as in earthly fits in.

Exultant means happy which, doesn't fit in the second sentence.

Desolate as a noun means barren and as a verb means to ruin.

Hence, mundane is the correct answer.

80. Ans. A.

The meanings of the words are as follows:
Solace: comfort or consolation in time of great distress or sadness.

Forsaken: abandoned.

Languid: weak or faint from illness or fatigue.

Gloomy: dark or poorly lit.

Robust: strong and healthy .

If we pay attention to the contexts of both the sentences, we can easily infer a positive tone, and 'solace' and 'Robust' are the only alternatives which makes a positive sense out of the given ones, contextually as well as grammatically. Further we need a noun in the blanks, so we can dismiss 'robust' as it is an adjective.

So, the correct answer is option A.

81. Ans. D.

The meaning of the words are as follows:

Rescind: cancel

Regression: the act of returning to a prior state

Restitution: the restoring of something that is stolen or lost to the property owner

Rendezvous: an arranged meeting that is often held in secrecy

Welter: a confused multitude of things

Thus, option D fits in both the sentences.

82. Ans. C.

The first sentence talks about a protest, which means there was unrest. The word in the blank must be closer in meaning to the same.

'Rampant' would mean 'uncontrolled and widespread' in the context of the first statement and 'upright or erect' in the second. So, option C is correct.

83. Ans. C.

The position of the third part is the action of. In the given sentence, the "reaction" is related to a situation, not a person. So, "to" should be used here. Hence, option C is correct.

84. Ans. C.

The error in the third part is that a preposition should be used after the words "tempt them" and "to" is the perfect preposition suited to be used here as it implies approaching something. Hence option C is correct.

85. Ans. A.

The preposition 'across' is used for depicting something that happened from one side to the other side of a place, which in this case is the USA. 'Into', on the other hand, shows the movement of something inside of something else. Clearly, the correct answer is option A.

86. Ans. A.

The error in the first part is the use of "would" because the sentence is a general statement and would use the simple present tense. Thus, "Will" should be used in place of "would". Hence, option A is correct.

87. Ans. A.

The error in the first part is the use of "remembers" because the sentence is in past tense and using passive voice, hence it should be using past tense of "remember" i.e. "remembered". Hence, option A is correct.

88. Ans. B.

It can be gathered from the given sentence that the two things that India has gained, have occurred as a consequence of the announcement of the periodic labour force surveys. Hence, the phrase "with the announcement" can be used to begin the sentence. Also, the correlative conjunctions "not only... but also" can effectively join the two sentences.

New statement:

With the announcement of periodic labour force surveys, India has not only created an opportunity for itself to undo its recent lukewarm performance on the job creation front but has also opened a lucrative window to make job creation the heart of policy formulation.

89. Ans. D.

The first sentence asserts that there are awards exclusively meant for the sportsmen. The second sentence, in this reference, proposes that as a consequence of the first sentence, the sportspersons should not be considered for Padma Awards.

Thus, both "when" and "as" can be put in the beginning to join the two sentences.

90. Ans. C.

First sentence states a fact. It tells us that in India, organised sector generates a small number of jobs. Second part states cause of the above fact. Hence 'Few organised sector jobs get generated because' is the correct option.

New Sentence: Few organised sector jobs get generated in India because industries prefer capital-intensive production despite the economy's relative abundance of low-wage labour.

So, the correct answer is option C.

91. Ans. B.

Second sentence states a fact. It tells us that officials of the forest department are not given any special training about medicinal plants. First part is effect of the above fact. Hence 'As the officials of the forest department' is the correct option.

New Sentence: As the officials of the forest department are not given any special training about medicinal plants, they are not even able to identify these plant species.

So, the correct answer is option B.

92. Ans. D.

First sentence states a fact. It states that Nehru (First Prime Minister of India) is not known as decisive leader in India. First sentence is not in conformity to second sentence which states that there is enough evidence of Nehru being decisive leader. Hence both the options 'Despite overwhelming evidence' & 'Though there is overwhelming evidence' are correct. Hence Option D is the right answer.

New Sentence(s):

Despite there being overwhelming evidence of his being a decisive leader, Nehru is hardly ever acknowledged as one.

Though there is overwhelming evidence of Nehru being a decisive leader, he is hardly ever acknowledged as one.

93. Ans. C.

The passage talks about biotechnology being the hope of America's future. It also emphasises that the technology can best thrive in rural America, where strategic investments and sound partnerships can be extremely helpful. These ideas are best covered in option C., which is the correct answer.

94. Ans. E.

Refer to the ninth and tenth line of the passage. It talks only about alternatives B and C. Alternative A is not mentioned in the passage. Thus, option E is the correct answer.

95. Ans. B.

To wipe- out means to destroy or erase. The given context implies that technology has been responsible for eliminating the traditional job. Thus, option B is the correct answer.

96. Ans. E.

All the statements are correct with reference to passage. Let us refer to the following excerpts from the passage:

a. "Under the Bio-Belt initiative, innovation would grow in rural areas, and **biomanufacturing could expand across the country, where land and feedstock are abundant.**"

b. "Fermentation is an increasingly powerful force for **converting sugar and other forms of biomass into value-added goods...**"

c. "Agriculture extension schools, which are often located in rural areas, should expand to deliver research and job training for rural communities."

d. "A critical component of our economic growth will be the bioeconomy." This implies that the author of the passage believes that bioeconomy would be one of the major contributors to economic growth of America.

97. Ans. C.

The given sentence means that the metropolitan areas have attracted the younger population, while the non-metropolitan areas have attracted the older generation. And as a consequence, the number of the old and the retirees has increased in the non-metropolitan regions.

98. Ans. B.

The concerned paragraph of the passage talks about the requirements to contribute to a sound rural biotechnology. The first sentence talks about strategic **partnerships** between business and academia. So, to express the relation between community colleges and local businesses in the given context, we can use the term "partnership". The union can also lead to the achievement mentioned in the same sentence: "to provide a pipeline of individuals with the skills..." Now, since two entities have been talked about, we will use "between" instead of "among". Thus, option B is the correct answer.

99. Ans. B.

To be stuck "in a bind" means to be caught in a difficult or awkward situation, especially one that is not easy to resolve

or escape. Thus, option B is the correct answer.

100. Ans. C.

The concerned sentence in the passage talks about **boosting** various types of partnerships between businesses and academia. Thus, "promote" can replace "incentivise".

101. Ans. A.

Persons: F, G, H, I, J, K, P and Q

Outside: 5, Inside: 3

Steps:

- 1) F sits second to the right of H.
- 2) G is not an immediate neighbour of both H and F.
- 3) Neither H nor F sits opposite to G.

- 4) Q sits third to the right of F.
- 5) K sits second to the right of Q.
- 6) I does not sit next to G.

- 7) P sits third to the right of I.
- 8) J and G face the same direction as I faces.
- 9) Among them only three are facing the centre of the table. It means case II is ruled out.

Clearly, K sits second to the left of I.

102. Ans. D.

Persons: F, G, H, I, J, K, P and Q

Outside: 5, Inside: 3

Steps:

- 1) F sits second to the right of H.

- 2) G is not an immediate neighbour of both H and F.
3) Neither H nor F sits opposite to G.

- 4) Q sits third to the right of F.
5) K sits second to the right of Q.
6) I does not sit next to G.

- 7) P sits third to the right of I.
8) J and G face the same direction as I faces.
9) Among them only three are facing the centre of the table. It means case II is ruled out.

Clearly, 4 persons sit between Q and J, counted from the right of Q.
103. Ans. C.

Persons: F, G, H, I, J, K, P and Q
Outside: 5, Inside: 3
Steps:

- 1) F sits second to the right of H.
2) G is not an immediate neighbour of both H and F.
3) Neither H nor F sits opposite to G.

- 4) Q sits third to the right of F.
5) K sits second to the right of Q.
6) I does not sit next to G.

- 7) P sits third to the right of I.
8) J and G face the same direction as I faces.
9) Among them only three are facing the centre of the table. It means case II is ruled out.

Clearly, P sits opposite to F.

104. Ans. C.

Persons: F, G, H, I, J, K, P and Q
Outside: 5, Inside: 3

Steps:

- 1) F sits second to the right of H.
2) G is not an immediate neighbour of both H and F.
3) Neither H nor F sits opposite to G.

- 4) Q sits third to the right of F.
5) K sits second to the right of Q.
6) I does not sit next to G.

- 7) P sits third to the right of I.
8) J and G face the same direction as I faces.
9) Among them only three are facing the centre of the table. It means case II is ruled out.

Clearly, only K faces the centre.

105. Ans. B.

Persons: F, G, H, I, J, K, P and Q

Outside: 5, Inside: 3

Steps:

1) F sits second to the right of H.

2) G is not an immediate neighbour of both H and F.

3) Neither H nor F sits opposite to G.

4) Q sits third to the right of F.

5) K sits second to the right of Q.

6) I does not sit next to G.

7) P sits third to the right of I.

8) J and G face the same direction as I faces.

Clearly, Q sits immediate left of P.

106. Ans. D.

Going through the options we can say that D is the only option.

107. Ans. E.

As R can be Niece or Nephew to Q, the answer cannot be determined.

108. Ans. C.

$T \geq S = P \geq Q$ I.

$P = Q$ (false) II.

$P > Q$ (false)

But both will follow together

Hence, either conclusion I nor II is true.

109. Ans. D.

$S \leq T, T > R, T = W$

$R < T \geq S$

I. $R < S$ (false)

$R < T = W \geq S$

II. $S > W$ (false)

Hence, neither conclusion I nor II is true.

110. Ans. C.

$X = Y \leq Z > W$

$X \leq Z$

I. $Z = X$

II. $Z > X$

Hence, either conclusion I or II is true.

111. Ans. A.

$R < S$ can be clearly deduced from the relationship.

$C \geq E$ cannot be true as both are related by opposite signs.

Thus only conclusion I is true.

Hence Option A is correct

112. Ans. B.

$V < U$ cannot be true because both are related by opposite signs.

$L \geq S$ clearly holds true.

Thus only conclusion II follows.

Hence Option B is correct

113. Ans. A.

The first is logical as the statement talks about the setting up of infrastructure which is ineffective in providing power to many areas. The second does not provide a solution as to why it will help overcome the power problem.

114. Ans. A.

Only I follows: it speaks about knowledge and skill development. IQ and General Knowledge are NOT synonymous. Hence II doesn't follow.

115. Ans. C.

The highest roll number belongs to the student who is the head of the class on Wednesday.

128. Ans. E.

The professional who has just been recruited needs to be evaluated over a period of time to know if he/she suits the work environment of the company. So, I is implicit. The statement mentions that the individual's capabilities shall be judged before confirmation. Hence, II is implicit as well.

129. Ans. C.

Since, it is stated that the existing laws are not strong enough, I is strong. Argument II states that there is no problem with the laws, but the problem is with implementation. Hence, II is strong. But, I and II are contradictory. One argument says that they are not sufficient and the other says they are sufficient. Hence either I or II is strong.

130. Ans. B.

Argument I is weak – just because something has been taking place/happening for ages doesn't make that thing right or correct. Argument II is strong as it gives us a proper reasoning why parents shouldn't be involved in arranging their child's marriage. Therefore, option B is the correct answer.

131. Ans. D.

D A C

R S

3. The immediate neighbour of Q faces the immediate neighbour of A. Only one person sits between P and T, who is facing the one sitting on the immediate right of E. Neither E nor F faces R. V and Q cannot sit adjacent to each other.

D E A B C F

T V P R Q S

136. Ans. D.

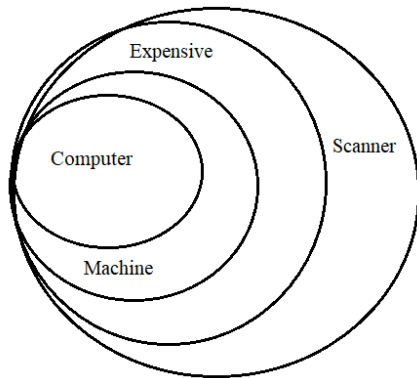

Neither conclusion I nor II follows.

137. Ans. D.

The Venn diagram for the above relation is

138. Ans. A.

Only conclusion I follows.

139. Ans. A.

The Venn Diagram for the above relation is

Thus only conclusion I follow from the above diagram.

Hence Option A is correct

140. Ans. D.

Case 1: $H * 7) 0 M \wedge \% K @ L \& 8 P \# \& O Y 7 I 4 Q 6 R @ 8 E 6 \& W 8) Z$

141. Ans. C.

Case 1: $H * 7) 0 M \wedge \% K @ L \& 8 P \# \& O Y 7 I 4 Q 6 R @ 8 E 6 \& W 8) Z$

Case 2: $H * 8) 6 M \wedge \% K @ L \& 8 P \# \& O Y 6 I 4 Q 7 R @ 8 E 0 \& W 7) Z$

Here, L is the fourth letter and as per our problem, second to the right of L is 6.

142. Ans. B.

Case 1: $H * 7) 0 M \wedge \% K @ L \& 8 P \# \& O Y 7 I 4 Q 6 R @ 8 E 6 \& W 8) Z$

Case 2: $H * G) 0 M \wedge \% K @ L \& H P \# \& O Y G I D Q F R @ H E F \& W H) Z$

143. Ans. A.

Given : $H * 7) 0 M \wedge \% K @ L \& 8 P \# \& O Y 7 I 4 Q 6 R @ 8 E 6 \& W 8) Z$

After changes : $8 * 7) 0 13 \wedge \% 11 @ 12 \& 8 16 \# \& 15 25 7 9 4 17 6 18 @ 8 5 6 \& 23 8) 26$

Numbers divisible by 4 : 8,12,8,16,4,8,8.

144. Ans. E.

Case 1: $H * 7) 0 M \wedge \% K @ L \& 8 P \# \& O Y 7 I 4 Q 6 R @ 8 E 6 \& W 8) Z$

In question, first see **ninth number (i.e. '1','2','3' etc.)** from the right end - 7

Then, **seventh letter (i.e. letter means 'a','b','c' etc)** to the **right of '7' - 'I'**

145. Ans. D.

Let Shalini started at A and moved into south 15 m and reached at B, then she turned right and walked 3m to reach C. She again turn right and walked 15m and reached D.

From the figure it is clear that at point D Shalini is faced on north direction.

Direction (51 – 51) : In the passage given below, there are blanks, each preceded by a word given in bold. Every blank has four alternative words given in options (A), (B), (C) and (D). Find the word which best suits the place. If the given word suits the blank, mark 'no correction/change required' as the answer.

Nowadays, globalization's opponents seem increasingly to be drowning out its

defenders. If they get their way, the post-World War II international order – which aimed, often successfully, to advance peace and prosperity through exchange and connection – could well **resemble** (###Q1###). Can globalization be saved?

At first glance, the outlook appears grim. Every aspect of globalization – free trade, free movement of capital, and international migration – is under attack. Leading the charge are **couthy** (###Q2###) forces – from populist political parties to separatist groups to terrorist organizations – whose actions tend to focus more on what they oppose than on what they support.

In Russia and Asia, anti-Western groups are at the forefront of the campaign against globalization. In Europe, populist parties have tended to emphasize their aversion to European integration, with those on the right often also **condemning** (###Q3###)

immigration, while the left denounces rising economic inequality. In Latin America, the enemy seems to be foreign **abetment** (###Q4###) of any kind. In Africa, tribal separatists oppose anyone standing in the way of independence. And in the Middle East, the Islamic State (ISIS) virulently rejects modernity – and targets societies that embrace it. Despite their differences, these groups have one thing in common: a deep hostility toward international structures and interconnectedness (though, of course, a murderous group like ISIS is in a different category from, say, European populists). They do not care that the international order they want to tear down enabled the rapid post-1945 economic growth that liberated billions of developing-country citizens from poverty. All they see are massive, unbending **organisation** (###Q5###) and intolerable inequalities in wealth and income, and they blame globalization.

Direction (71 – 77) : Read the given passage carefully and answer the questions that follow. Certain words are printed in bold to help you locate them while answering some of these.

The Financial Times with a survey concluded that millennials are prioritizing short-term spending over long-term saving. According to one calculation, the average 25-year-old should be saving £800 (or about \$1,146) a month over the next 40 years, in order to retire at 65 with an annual income of £30,000. That piece went viral. For all the wrong reasons. As millennials who responded angrily to the article noted, they're too busy buying groceries or paying rent to even think about being able to have that much money to allocate to a savings account. But ignoring the tone deafness, there is a real problem here.

T Rowe Price recommends that millennials should save about 15% of their incomes for retirement. However, a recent survey found that on average, while they are doing a good job of budgeting and say they have increased their savings in the past 12 months, their actual savings rate is about 8%. Financial planners can puff and huff about results like that. They can argue that millennials don't realize how much they need to save; that they are succumbing to one of those behavioural finance phenomena by failing to appreciate that yes, one day they, too, will be 65 and need a retirement nest egg. For their part, the millennials might well argue that the rest of us simply don't understand their new normal.

It has always been true, and remains true today, that a dollar someone puts aside in a tax-sheltered retirement account when he is 25 years old will be worth much, much more than that same dollar would be if he had set it aside at the age of 50, thanks to the fact that it is sitting there being reinvested, year after year, tax-free. What someone in their 20s loses in absolute wealth, they earn in terms of time. The problem is that there are too many other factors stopping millennials from making that decision to save.

They have got the millennial paradox to contend with.

In 2014, the average college student graduated with \$33,000 of student debt, according to one calculation. Do you want to be one of those students who defaults on her student debt, just in order to have a few extra bucks to put into her retirement account? Really, not a viable solution; those payments have to be kept up, even if it means there's no money for a retirement account. The cost of living is climbing, too, led by rental costs, which hit records in many cities last year. On average, millennials who rent nationwide would have had to spend 30% of their monthly income to their landlords. Health insurance? If your company offers it, odds are it's a benefit that requires you to shoulder a greater portion of the costs of these days. And if you're older than 26, and paying for your own healthcare, you've already discovered that both premiums and deductibles are rising for most policies. Then, there are other expenses like wedding gifts, birthday gifts, parties, clothes, accessories, food bills, transportation, travel or vacations.

Eventually, some of those pressures will **abate** – the student debt will be paid down – and millennials will be earning more. But they will be older, and the value of each dollar they save by that stage will be less. In any event, new financial pressures will arrive on the scene, in the form of children, the need to save for a house, to help out ageing parents. Perhaps there is some creative way to tackle this. To the extent that the cost of obtaining an education means that millennials can't start saving for retirement when it's most advantageous for all of society that they should, maybe there's a way to restructure or postpone debt payments until later in life as long as graduates begin contributing to their retirement accounts.

71. What does the author mean by "...They have got the millennial paradox to contend with"?

A. Millennials are contradictory, counterintuitive, or downright confusing.

B. Millennials have to struggle with the fact that they are a generation packed with contradictions.

C. Millennials are struggling with all the competing demands on their dollars, just when they know that if they put them to work in their retirement account, they'd do them the most good.

D. Millennials are dealing with the fact that they are in their 20s and are actually making money, but the problem is that something or someone is after every single dollar.

E. Millennials got to contend with the fact that they are being both fully aware of saving for the future, and also they are being completely ignorant of it at the same time.

Direction (93 – 102) : Read the given passage carefully and answer the questions that follow. Certain words are printed in bold to help you locate them while answering some of these.

Cow-free burgers are now all the rage. That's great for California, but rural America is **stuck in a bind**. Technology is **wiping out** traditional jobs, and high-tech training can be hard to come by in towns where livestock outnumber people. Young Americans know this. According to a recent report from the United States Department of Agriculture Economic Research Service, **non-metropolitan communities are greying as they attract retirees and lose new members of the labour force**. Although rural communities are home to 14 percent of the population, they have seen just 4 percent of the employment growth since 2013. Despite this economic pressure, rural America remains one of our nation's most fertile regions, and recent advances in biotechnology are making it easier than ever to sustainably grow new kinds of valuable goods, from biopharmaceuticals to biomaterials. With the right strategic investments, rural America could see a biotech "bloom." A Bio-Belt stretching through middle America must be built to bring new skills and high-paying jobs to communities that desperately need them. This initiative would bolster investment in biotechnology training, education, infrastructure and entrepreneurship in rural areas in order to develop new, sustainable sources of income. The Bio-Belt is about much more than biofuel. Fermentation is an increasingly powerful force for converting sugar and other forms of biomass into value-added goods—all through the rational design of cells that can be sustainably grown wherever land is abundant. Rural biotechnology, like all biotechnology, will require strategic partnerships between business and academia. Agriculture extension schools, which are often located in rural areas, should expand to

deliver research and job training for rural communities. Success will also depend on community colleges and local businesses to provide a pipeline of individuals with the skills needed to work in regional biotech clusters. The government should **incentivise** these partnerships. National laboratories dedicated to biological manufacturing are also needed in rural areas. These could be standalone new labs or expansions of existing facilities. Biotechnology startups could use them as incubators to test their products without having to make a major investment in equipment themselves. At present, this vehicle for commercial success is mostly limited to the coasts. Likewise, access to existing fermentation capacity should expand to those outside of coastal cities. This could be one of the cheapest ways to spread the benefits of biotechnology to more entrepreneurs. Under the Bio-Belt initiative, innovation would grow in rural areas, and biomanufacturing could expand across the country, where land and feedstock are abundant. With new ideas, creative policies, supportive infrastructure and sound investments in biotech research and development, the budding companies will be just the first of many to take root between the coasts of this great nation. As the country thinks about its future manufacturing competitiveness and infrastructure, let's remember this: 21st-century infrastructure is not just roads and bridges. A critical component of our economic growth will be the bioeconomy. Source: <https://www.forbes.com/>

93. What is the central theme of the passage?
- A. The future of biotechnology is bright in the urban America.
 - B. Biotechnology will require a lot of investment to thrive and hence, the possibility of utilising it in the near future is doubtful.
 - C. Strategic investment in biotechnology can reinvigorate rural America and help secure the nation's high-tech competitive advantage.

- D. The skilled labour in biotechnology resides in the cities, thus, the cost of executing biotechnology in the rural areas will be quite high.
- E. None of the above.

94. How would the Bio-Belt be advantageous to the rural communities?
- a) The partnership with local businesses would boost the International business.
 - b) It would provide new skills and jobs to people who badly need them.
 - c) It would strengthen training, education, infrastructure and entrepreneurship with reference to biotechnology in rural areas.
- A. Only a
 - B. Only b
 - C. Both a and b
 - D. All a, b and c
 - E. Both b and c

95. Which of the following words can replace the phrase "wiping out" as used in the passage?
- A. Picturising
 - B. Erasing
 - C. Cleansing
 - D. Sanitizing
 - E. None of the above

96. Which of the following statement(s) is/ are true with reference to the context of the passage?
- a) The Bio-Belt initiative aims to promote biomanufacturing across the country, where land and feedstock are abundant.
 - b) Fermentation acts as a tool to convert biomass into value added goods.
 - c) The establishment of agricultural research institutions in the rural areas will boost the Bio- Belt initiative.
 - d) The author of the passage believes that in the years to come, bioeconomy would be one of the major contributors to economic growth of America.
- A. Only a
 - B. Only c
 - C. Both a and d
 - D. Only a, b and c
 - E. All a, b, c and d

97. What can be understood from the following lines of the passage?
- "...non-metropolitan communities are greying as they attract retirees and lose new members of the labour force..."**
- A. Off late, the non- metropolitan areas have been experiencing economic

slowdown when compared to the urban areas.

B. The absence of the young in the non-metropolitan communities is rendering the households gloomy.

C. Non-metropolitan areas are drawing the old and the retired population from and sending its young population to the metropolitan areas, thus increasing the number of the old in the former.

D. Old people in the metropolitan areas have become a burden over the young.

The 2018 World Wrestling Championships are the 15th edition of World Wrestling Championships of combined events and are to be held from October 20 to 28 in Budapest, Hungary.

46. Ans. A.

* Buenos Aires is the capital and largest city of Argentina.

* Argentina is a massive South American nation with terrain encompassing Andes mountains, glacial lakes and Pampas grassland, the traditional grazing ground of its famed beef cattle.

* The country is famous for tango dance and music.

47. Ans. A.

* NSDL Payments Bank Limited is an Indian Non-Government Company head quartered in Mumbai.

* It was established based on a suggestion by a national institution responsible for the economic development of India.

48. Ans. A.

The first joint military exercise named "Dharma Guardian" between India and Japan was held at the Army's Counter-Insurgency Warfare School at Vairengte (Mizoram) on 1 -14th November 2018.

The exercise is aimed at developing mutual understanding and respect between militaries of both countries, as also facilitate in tracking worldwide phenomenon of terrorism.

49. Ans. C.

Prime Minister Narendra Modi unveiled 64-Foot tall statue of Deenbandhu Sir Chhotu Ram (messiah of farmers) at Sampla in Rohtak district, Haryana.

Prime Minister also visited the museum set up in memory of Deenbandhu Chhotu Ram which depicts and gives glimpses of his life.

50. Ans. B.

Delhi Chief Minister Arvind Kejriwal has inaugurated the iconic 'Signature Bridge' over river 'Yamuna' in Delhi.

The Signature Bridge (675 metres long) is a cantilever spar cable-stayed bridge, spans Yamuna river at Wazirabad section, connecting Wazirabad to East Delhi.

51. Ans. A.

The previous sentence talks about globalization's opponents drowning their defenders. The sentence following the blank also mentions 'Can globalization be saved?'. This indicates a possibility of a downfall. Corresponding to that, collapse is the most suitable response. 'Collapse'

refers to a sudden downfall or breakdown.

52. Ans. A.

The passage mention every aspect of globalization – free trade, free movement of capital, and international migration – is under attack by forces ranging from populist political parties to separatist groups to terrorist organizations. This indicates that the forces are of hostile nature which is best implied by the use of the word 'antagonistic'. It refers to showing or feeling active opposition or hostility towards someone or something. Couthy means warm and friendly nature of a person.

Chummy means on friendly terms; friendly.

Pally means having a close, friendly relationship.

Providential means occurring at a favourable time; opportune.

53. Ans. E.

'Condemn' means to express complete disapproval; censure. It is the most suitable response according to the

context of the statement.

Complimentary means expressing a compliment; praising or approving.

Flattering means full of praise and compliments.

~~Absolving, obligating, are (possible)~~
Laudatory means (of speech or writing) expressing praise and commendation.

54. Ans. B.

'Interference' refers to the action of interfering(intervening) or the process of being interfered(intervened) with. The passage is talking about anti-Western groups campaigning against globalization, aversion to European integration by populist parties in Europe and immigration. Corresponding to the context of the statement, 'Interference' is the most suitable response (in relation to foreign activity).

Compaction means the process by which the porosity of a given form of sediment is decreased as a result of its mineral grains being squeezed together by the weight of overlying sediment or by mechanical means.

Facilitation means the act of helping other people to deal with a process or reach an agreement or solution

Compunction means a feeling of guilt or moral scruple that prevents or follows the doing of something bad.

55. Ans. D.

Among the given options, only organisation and institutions seem to fit in. However, 'organisation' is singular while the sentence talks about plural entities. Hence, the most apt response is 'institutions'.

Assimilation means the process of taking in and fully understanding information or ideas.

Distraction means a thing that prevents someone from concentrating on something else

56. Ans. E.

A and F can be connected as it conveys the meaning both grammatically and contextually as well. Sentence "A" ends with "over" which is a preposition and thus it needs an object or an objective clause after it so, "D" and "E" cannot come after "over" as both of them start with a preposition. Hence, "F" will fit which makes the sentence grammatically correct. Contextually as well, we can infer that sentence intends to mention the aim of someone which is to aim and make a particular part of the population as a vote bank without thinking about other Indian citizens.

B and D can be connected since contextually it states that claims and objectives of providing shelter to the minorities in India's neighbourhood in the bill are less in reality than what government claimed in the bill. So contextually a complete meaning can be inferred. As far as grammar is concerned, "claims and objectives" are the nouns which further need a verb or a preposition to complete a meaningful sentence thus, "F and E" are not fit to be added after "claims and objectives". So, the correct pair is B and D. C and E cannot be connected as we may infer something contextually but grammatically it will be incorrect as the first or main clause is in past tense thus the subordinate clause of the sentence cannot be in present and

should be in past. C and E therefore, cannot make a correct sentence.

Thus, option E is the correct answer.

57. Ans. C.

C and D can be joined to form a meaningful as well as a grammatically correct sentence. Sentence "C" states a fact and the effect of it has been shown with the help of sentence D.

A and E cannot be connected as the context of both the sentences are different from each other. In Sentence "A", "congress" refers to a convention or conference is talked about and in sentence E, a political party is being talked about and the context of the sentences is also not aligning to each other. B and F cannot be connected as well as the subject in part F is 'hatred' (singular) for which the verb used is 'are' (plural). This violates sentence verb agreement rule and is thus erroneous. Thus, option C is the correct answer.

58. Ans. B.

In order to form a meaningful and grammatically correct sentence, the two parts of a sentence should connect grammatically and contextually. In the given question, A joins with D to make a correct sentence. B tells about a word that could be used to describe Christmas. The word has been mentioned in F, making B-F a pair. Contextually, C and E could have been joined, if the conjunction "and" had been placed between the verbs "detect and distinguish". Thus, option B is the correct answer.

59. Ans. C.

Option A mentions a person, who can have a certain behaviour, thus, it can pair up with E. Option C must go with D as it explains that lack of fitness is the reason why most players don't play for long. Only these two make sense. The correct answer is option C.

60. Ans. C.

Option A must go with E as it talks about a player who was very good in the early days but doesn't play as well these days. Option C must go with D as it talks about an incident when a cat slipped over a pencil that was lying on the floor. Rest of the option doesn't make sense. Thus, the correct answer is option C.

61. Ans. C.

Refer to the last sentence in the series.

62. Ans. E.

Refer to the last sentence in the series.

63. Ans. A.

Refer to the last sentence in the series.

64. Ans. D.

Refer to the last sentence in the series.

65. Ans. B.

The paragraph is talking about decrease in number of lions in the Gir Forest. The sentence that introduces this topic is option C. So, C comes first. E could also work as an introduction. But, E introduces the topic of 'infighting in the wild' which doesn't match with other sentences in the paragraph. Now, for the next sentence, we need elaboration on the topic introduced in C. F does this perfectly as it gives statistics about the death of lions. Now, an event took place, so we would have consequences. An immediate consequence of the events is that an inquiry was made, as described in A. So, A comes next. So far, our sequence is CFA. The next is D as it is fixed. The remaining two sentences are B & E. E should come after D as both have a common topic of 'infighting'. This leaves for the last. So, the sequence becomes CFADEB.

66. Ans. E.

All the highlighted words are in correct position and no exchange is required. Hence, the correct answer is E.

67. Ans. A.

Partition of India was one particular happening in the history and thus be preceded by singular noun, so the word at A is incorrect. The noun following the phrase "one of the" is always a plural noun, so the word at D is incorrect. Further, it was not the migration that led to "tragic death and displacement". People were displaced in large numbers; hence, it was called migration. The Partition of India on the other hand was an *event*, which had many other aspects other than just migration. So, A & D should be exchanged. Hence, the correct answer is A.

68. Ans. A.

'Prepare', 'engineering' and 'consequences' are placed correctly in the

sentence and need not be interchanged. 'Cope with' is used when some difficult situation is given. Also, 'cope (up) with' is a phrase with which we use a noun. Hence, 'risk' should be interchanged with 'better' in order to make the statement contextually as well as grammatically correct.

69. Ans. D.

The highlighted words have been correctly placed in the sentence. Thus, option D is the correct answer.

70. Ans. E.

The statement explains that if the current situation of economic growth continuous, one million species could go extinct in decades. So, after interchanging 'factoring' with 'continuous' and 'decades' with 'extinct', we get a meaningful statement. Hence, option E is the right answer.

71. Ans. C.

"To contend with" means to have to deal with a difficult or unpleasant situation. Millennials (a word crafted to refer to the generation born between 1980 and 2000) are young people who are between the ages of 20 to 40 years and are fast entering their prime spending years. Growing up in an age of rapid change, they have a set of expectations and priorities that are radically different from those of the older generations.

The passage talks about the importance of saving for the future or retirement. Saving for the future is on the minds of millennials, but many feel overwhelmed and under-prepared. Coupled with rising health care, child care, and housing costs, the economic priority for millennials is to achieve and maintain financial stability instead of saving for the future. They're regularly chastised for failing to save enough for their future.

Millennial paradox refers to the situation where they know "they should be saving £800 (or about \$1,146) a month over the next 40 years, in order to retire at 65 with an annual income of £30,000" but "they're too busy buying groceries or paying rent" and debts "to even think about being able to have that much money to allocate to a savings account." Basically, "the problem is that there are

too many other factors stopping millennials from making that decision to save."

This idea is best described in statement C. Therefore, option C is the apt answer.

72. Ans. E.

Abate is a verb which refers to something unpleasant or severe that become less intense or widespread. In other words, it means to make something less intense.

Option I: Wane refers to a state or feeling which decrease in vigour or extent; become weaker.

Option II: Recede refers to a quality, feeling, or a possibility that gradually diminish.

Option III: Prolong means to extend the duration of something.

'Wane' and 'recede' are synonyms of abate and 'prolong' is antonym of abate. Therefore, option E is the apt answer.

73. Ans. B.

An argument is an expression of opinion that is developed in a passage. Some arguments contain hidden assumptions sometimes intended to subtly bias the reader. An assumption is a belief that the author takes for granted, based on opinion or experience. Assumptions are presented as facts. If the author states an opinion but doesn't supply any supporting details, you should suspect that it is an assumption.

All the statements can be taken as an assumption made by the author in order to support his/her argument, except statement B. The author does not talk about 'small amount' or 'larger amount.' He/she is trying to say that if you're 20 today, and put \$1 aside, and it earns the historical 6.6% return, by the time you're 65, that single dollar will have become \$18.50. But if you put aside the same dollar at 30, by 65 it's only worth \$9.60 – you've lost half of the potential gains. Therefore, option B is the apt answer.

74. Ans. A.

The fourth paragraph says that the cost of living is expensive and it's hard to save for the future. Millennials still have to work hard to continue to support themselves and pay for the necessities and recreational needs they have. The lack of saving culture means they are

spending more on current consumption instead of saving for future consumption. Less accumulation of wealth means less security on their future consumption, which will result in uneven consumption patterns in their life. Thus, this inference properly follows from the statements of facts given in the fourth paragraph. Therefore, option A is the apt answer.

75. Ans. B.

The fourth paragraph says that the most important parts of the economy, like housing, healthcare, education, are getting more expensive. Consequently, it creates an even bigger financial burden for millennials to shoulder. Facing a stark set of financial circumstances, millennials started adulthood with less room for financial mistakes than previous generations. In response, they are managing their money differently.

This situation can either be an excuse for hopelessness, apathy, and retreat, or an opportunity to rise to the occasion, to find a better path, to zig when the world zags – to make the obstacle the way. Many millennials are refinancing student loans, delaying home purchases, and looking for creative ways to earn more money through side hustles. They are taking the latter course. By making these countermoves around the obstacles in the economic landscape, millennials can become more financially savvy, clever or shrewd.

Note that it is based on the idea that many millennials, not all millennials, are becoming financially savvy. One can say that it is based on probability and not true for all. Thereby, this inference is not definitely true in light of the facts given in the fourth paragraph.

Therefore, option B is the apt answer.

76. Ans. D.

The error lies in option D. The correct idiom is 'huff and puff' which means disapproving to complain loudly and express disapproval. Therefore, option D is the apt answer

77. Ans. A.

Option A: Sanguine refers to a piece of writing that is optimistic or positive, especially in an apparently bad or difficult situation.

Option B: Constructive refers to a piece of writing that has or intended to have a useful or beneficial purpose.

Option C: Sarcastic refers to a piece of writing that is marked by the irony in order to mock or convey contempt.

Option D: Satirical refers to a piece of writing in which vices, follies, abuses, and shortcomings are held up to ridicule, ideally with the intent of shaming individuals, corporations, government, or society itself into improvement.

Option E: Inspiring refers to a piece of writing that has the effect of inspiring someone.

"Perhaps there is some creative way to tackle this" shows that the author is positive regarding the whole situation. Among all the options, 'sanguine' is the most suitable. Therefore, option A is the apt answer.

78. Ans. C.

Benefit- an advantage or profit gained from something.

Censure- express severe disapproval of (someone or something), especially in a formal statement.

Respite- a short period of rest or relief from something difficult or unpleasant.

Only "respite" can fit in both the blanks.

79. Ans. D.

Mundane means by the practical, transitory, and ordinary

ii) of, relating to, or characteristic of the world; earthly

In the first statement, mundane as in ordinary affairs/situations fits in while in the second statement, mundane as in earthly fits in.

Exultant means happy which, doesn't fit in the second sentence.

Desolate as a noun means barren and as a verb means to ruin.

Hence, mundane is the correct answer.

80. Ans. A.

The meanings of the words are as follows:
Solace: comfort or consolation in time of great distress or sadness.

Forsaken: abandoned.

Languid: weak or faint from illness or fatigue.

Gloomy: dark or poorly lit.

Robust: strong and healthy .

If we pay attention to the contexts of both the sentences, we can easily infer a positive tone, and 'solace' and 'Robust' are the only alternatives which makes a positive sense out of the given ones, contextually as well as grammatically. Further we need a noun in the blanks, so we can dismiss 'robust' as it is an adjective.

So, the correct answer is option A.

81. Ans. D.

The meaning of the words are as follows:

Rescind: cancel

Regression: the act of returning to a prior state

Restitution: the restoring of something that is stolen or lost to the property owner

Rendezvous: an arranged meeting that is often held in secrecy

Welter: a confused multitude of things

Thus, option D fits in both the sentences.

82. Ans. C.

The first sentence talks about a protest, which means there was unrest. The word in the blank must be closer in meaning to the same.

'Rampant' would mean 'uncontrolled and widespread' in the context of the first statement and 'upright or erect' in the second. So, option C is correct.

83. Ans. C.

The position of the third part is the action of.

In the given sentence, the "reaction" is related to a situation, not a person. So, "to" should be used here. Hence, option C is correct.

84. Ans. C.

The error in the third part is that a preposition should be used after the words "tempt them" and "to" is the perfect preposition suited to be used here as it implies approaching something. Hence option C is correct.

85. Ans. A.

The preposition 'across' is used for depicting something that happened from one side to the other side of a place, which in this case is the USA. 'Into', on the other hand, shows the movement of something inside of something else. Clearly, the correct answer is option A.

86. Ans. A.

The error in the first part is the use of "would" because the sentence is a general statement and would use the simple present tense. Thus, "Will" should be used in place of "would". Hence, option A is correct.

87. Ans. A.

The error in the first part is the use of "remembers" because the sentence is in past tense and using passive voice, hence it should be using past tense of "remember" i.e. "remembered". Hence, option A is correct.

88. Ans. B.

It can be gathered from the given sentence that the two things that India has gained, have occurred as a consequence of the announcement of the periodic labour force surveys. Hence, the phrase "with the announcement" can be used to begin the sentence. Also, the correlative conjunctions "not only... but also" can effectively join the two sentences.

New statement:

With the announcement of periodic labour force surveys, India has not only created an opportunity for itself to undo its recent lukewarm performance on the job creation front but has also opened a lucrative window to make job creation the heart of policy formulation.

89. Ans. D.

The first sentence asserts that there are awards exclusively meant for the sportsmen. The second sentence, in this reference, proposes that as a consequence of the first sentence, the sportspersons should not be considered for Padma Awards.

Thus, both "when" and "as" can be put in the beginning to join the two sentences.

90. Ans. C.

First sentence states a fact. It tells us that in India, organised sector generates a small number of jobs. Second part states cause of the above fact. Hence 'Few organised sector jobs get generated because' is the correct option.

New Sentence: Few organised sector jobs get generated in India because industries prefer capital-intensive production despite the economy's relative abundance of low-wage labour.

So, the correct answer is option C.

91. Ans. B.

Second sentence states a fact. It tells us that officials of the forest department are not given any special training about medicinal plants. First part is effect of the above fact. Hence 'As the officials of the forest department' is the correct option.

New Sentence: As the officials of the forest department are not given any special training about medicinal plants, they are not even able to identify these plant species.

So, the correct answer is option B.

92. Ans. D.

First sentence states a fact. It states that Nehru (First Prime Minister of India) is not known as decisive leader in India. First sentence is not in conformity to second sentence which states that there is enough evidence of Nehru being decisive leader. Hence both the options 'Despite overwhelming evidence' & 'Though there is overwhelming evidence' are correct. Hence Option D is the right answer.

New Sentence(s):

Despite there being overwhelming evidence of his being a decisive leader, Nehru is hardly ever acknowledged as one.

Though there is overwhelming evidence of Nehru being a decisive leader, he is hardly ever acknowledged as one.

93. Ans. C.

The passage talks about biotechnology being the hope of America's future. It also emphasises that the technology can best thrive in rural America, where strategic investments and sound partnerships can be extremely helpful. These ideas are best covered in option C., which is the correct answer.

94. Ans. E.

Refer to the ninth and tenth line of the passage. It talks only about alternatives B and C. Alternative A is not mentioned in the passage. Thus, option E is the correct answer.

95. Ans. B.

To wipe- out means to destroy or erase. The given context implies that technology has been responsible for eliminating the traditional job. Thus, option B is the correct answer.

96. Ans. E.

All the statements are correct with reference to passage. Let us refer to the following excerpts from the passage:

a. "Under the Bio-Belt initiative, innovation would grow in rural areas, and **biomanufacturing could expand across the country, where land and feedstock are abundant.**"

b. "Fermentation is an increasingly powerful force for **converting sugar and other forms of biomass into value-added goods...**"

c. "Agriculture extension schools, which are often located in rural areas, should expand to deliver research and job training for rural communities."

d. "A critical component of our economic growth will be the bioeconomy." This implies that the author of the passage believes that bioeconomy would be one of the major contributors to economic growth of America.

97. Ans. C.

The given sentence means that the metropolitan areas have attracted the younger population, while the non-metropolitan areas have attracted the older generation. And as a consequence, the number of the old and the retirees has increased in the non-metropolitan regions.

98. Ans. B.

The concerned paragraph of the passage talks about the requirements to contribute to a sound rural biotechnology. The first sentence talks about strategic **partnerships** between business and academia. So, to express the relation between community colleges and local businesses in the given context, we can use the term "partnership". The union can also lead to the achievement mentioned in the same sentence: "to provide a pipeline of individuals with the skills..." Now, since two entities have been talked about, we will use "between" instead of "among". Thus, option B is the correct answer.

99. Ans. B.

To be stuck "in a bind" means to be caught in a difficult or awkward situation, especially one that is not easy to resolve

or escape. Thus, option B is the correct answer.

100. Ans. C.

The concerned sentence in the passage talks about **boosting** various types of partnerships between businesses and academia. Thus, "promote" can replace "incentivise".

101. Ans. A.

Persons: F, G, H, I, J, K, P and Q

Outside: 5, Inside: 3

Steps:

- 1) F sits second to the right of H.
- 2) G is not an immediate neighbour of both H and F.
- 3) Neither H nor F sits opposite to G.

- 4) Q sits third to the right of F.
- 5) K sits second to the right of Q.
- 6) I does not sit next to G.

- 7) P sits third to the right of I.
- 8) J and G face the same direction as I faces.
- 9) Among them only three are facing the centre of the table. It means case II is ruled out.

Clearly, K sits second to the left of I.

102. Ans. D.

Persons: F, G, H, I, J, K, P and Q

Outside: 5, Inside: 3

Steps:

- 1) F sits second to the right of H.

2) G is not an immediate neighbour of both H and F.

3) Neither H nor F sits opposite to G.

4) Q sits third to the right of F.

5) K sits second to the right of Q.

6) I does not sit next to G.

7) P sits third to the right of I.

8) J and G face the same direction as I faces.

9) Among them only three are facing the centre of the table. It means case II is ruled out.

Clearly, 4 persons sit between Q and J, counted from the right of Q.

103. Ans. C.

Persons: F, G, H, I, J, K, P and Q

Outside: 5, Inside: 3

Steps:

1) F sits second to the right of H.

2) G is not an immediate neighbour of both H and F.

3) Neither H nor F sits opposite to G.

4) Q sits third to the right of F.

5) K sits second to the right of Q.

6) I does not sit next to G.

7) P sits third to the right of I.

8) J and G face the same direction as I faces.

9) Among them only three are facing the centre of the table. It means case II is ruled out.

Clearly, P sits opposite to F.

104. Ans. C.

Persons: F, G, H, I, J, K, P and Q

Outside: 5, Inside: 3

Steps:

1) F sits second to the right of H.

2) G is not an immediate neighbour of both H and F.

3) Neither H nor F sits opposite to G.

4) Q sits third to the right of F.

5) K sits second to the right of Q.

6) I does not sit next to G.

7) P sits third to the right of I.

8) J and G face the same direction as I faces.

9) Among them only three are facing the centre of the table. It means case II is ruled out.

Clearly, only K faces the centre.

105. Ans. B.

Persons: F, G, H, I, J, K, P and Q

Outside: 5, Inside: 3

Steps:

1) F sits second to the right of H.

2) G is not an immediate neighbour of both H and F.

3) Neither H nor F sits opposite to G.

4) Q sits third to the right of F.

5) K sits second to the right of Q.

6) I does not sit next to G.

7) P sits third to the right of I.

8) J and G face the same direction as I faces.

9) Among them only three are facing the centre of the table. It means case II is ruled out.

Clearly, Q sits immediate left of P.

106. Ans. D.

Going through the options we can say that D is the only option.

107. Ans. E.

As R can be Niece or Nephew to Q. the answer cannot be determined.

108. Ans. C.

$T \geq S = P \geq Q$ I.

$P = Q$ (false) II.

$P > Q$ (false)

But both will follow together

Hence, either conclusion I nor II is true.

109. Ans. D.

$S \leq T, T > R, T = W$

$R < T \geq S$

I. $R < S$ (false)

$R < T = W \geq S$

II. $S > W$ (false)

Hence, neither conclusion I nor II is true.

110. Ans. C.

$X = Y \leq Z > W$

$X \leq Z$

I. $Z = X$

II. $Z > X$

Hence, either conclusion I or II is true.

111. Ans. A.

$R < S$ can be clearly deduced from the relationship.

$C \geq E$ cannot be true as both are related by opposite signs.

Thus only conclusion I is true.

Hence Option A is correct

112. Ans. B.

$V < U$ cannot be true because both are related by opposite signs.

$L \geq S$ clearly holds true.

Thus only conclusion II follows.

Hence Option B is correct

113. Ans. A.

The first is logical as the statement talks about the setting up of infrastructure which is ineffective in providing power to many areas. The second does not provide a solution as to why it will help overcome the power problem.

114. Ans. A.

Only I follows: it speaks about knowledge and skill development. IQ and General Knowledge are NOT synonymous. Hence II doesn't follow.

115. Ans. C.

The highest roll number belongs to the student who is the head of the class on Wednesday.

Step 1: The head of the class on Wednesday is Student D and on Saturday is B. The student whose roll number is 20 becomes the head of the class on Thursday.

Days	Students	Roll Number
Monday		
Tuesday		
Wednesday	D	
Thursday		20
Friday		
Saturday	B	

Step 2: Student C becomes the head of the class just after student A. The student with roll number 24 is the next student to become the head of the class after student C. Here we can have two possibilities,

Days	Students	Roll Number
Monday	A	
Tuesday	C	
Wednesday	D	24
Thursday		20
Friday		
Saturday	B	

table 1

Days	Students	Roll Number
Monday		
Tuesday		
Wednesday	D	
Thursday	A	20
Friday	C	
Saturday	B	24

table 2

Step 3: The head of the class on Monday is neither Student E nor F. So table 2 possibility is cancelled. And now we shall proceed with table 1 possibility.

Step 4: The difference between the roll number of the head of the class on the first day of the week and last day of the week is 1.

Days	Students	Roll Number
Monday	A	17/18
Tuesday	C	
Wednesday	D	24
Thursday		20
Friday		
Saturday	B	18/17

table 1

Step 5: The difference of roll number of student B and student F is 4. For this to be true, the student B must have the roll number 17 and F shall be the head of the class on Friday with his roll number as 21 as shown in the table below.

Days	Students	Roll Number
Monday	A	18
Tuesday	C	
Wednesday	D	24
Thursday		20
Friday	F	21
Saturday	B	17

table 1

Finally filling the remaining places, we get that Student E becomes the head of the class on Thursday and the student C who is the head of the class on Tuesday has 23 roll number.

Days	Students	Roll Number
Monday	A	18
Tuesday	C	23
Wednesday	D	24
Thursday	E	20
Friday	F	21
Saturday	B	17

Wednesday.

116. Ans. A.

The highest roll number belongs to the student who is the head of the class on Wednesday.

Step 1: The head of the class on Wednesday is Student D and on Saturday is B. The student whose roll number is 20 becomes the head of the class on Thursday.

Days	Students	Roll Number
Monday		
Tuesday		
Wednesday	D	
Thursday		20
Friday		

Step 2: Student C becomes the head of the class just after student A. The student with roll number 24 is the next student to become the head of the class after student C. Here we can have two possibilities,

Days	Students	Roll Number
Monday	A	
Tuesday	C	
Wednesday	D	24
Thursday		20

Here we have to match the words in all statements such as 'go' come in every statement so assign it any diagram or you can write down it and as per word we have to search code in coded statements such as here only 'tik' comes for three times so it would be the code for 'go'. Hence 'pik' is the code for 'saurabh'.

Hence 'sik' is the code for 'major'.
126. Ans. D.

Here we have to match the words in all statements such as 'go' come in every statement so assign it any diagram or you

can write down it and as per word we have to search code in coded statements such as here only 'tik' comes for three times so it would be the code for 'go'. Here we can't match the code for convoy and further but in statement 2 code gik and cik are remaining, but we can't assure that which code will be for which word. So here we use either or. Hence 'cik' is the code for either convoy or further.

127. Ans. B.

128. Ans. E.

The professional who has just been recruited needs to be evaluated over a period of time to know if he/she suits the work environment of the company. So, I is implicit. The statement mentions that the individual's capabilities shall be judged before confirmation. Hence, II is implicit as well.

129. Ans. C.

Since, it is stated that the existing laws are not strong enough, I is strong. Argument II states that there is no problem with the laws, but the problem is with implementation. Hence, II is strong. But, I and II are contradictory. One argument says that they are not sufficient and the other says they are sufficient. Hence either I or II is strong.

130. Ans. B.

Argument I is weak – just because something has been taking place/happening for ages doesn't make that thing right or correct. Argument II is strong as it gives us a proper reasoning why parents shouldn't be involved in arranging their child's marriage. Therefore, option B is the correct answer.
