ABOUT SAP

ERP

Enterprise resource planning is the integrated management of main business processes, often in real-time and mediated by software and technology.

SAP

A German multinational software company which develops enterprise software to manage business operations and customer relations. The company is the world's leading enterprise resource planning software vendor. As the largest ERP vendor globally and the 12th largest tech company, SAP is used by over 425,000 businesses across 190 countries. With a strong existing base, it continues to expand globally, maintaining its position as an industry leader.

SAP S/4 HANA

SAP's premier ERP solution, caters to large multinational companies, including industry giants like Coca Cola, Heineken, Audi, Burger King, Atos, Huawei, and Tata. It is versatile, used on-premise, in the cloud, or as a hybrid, accommodating diverse business needs.

Contrary to the perception of being exclusive to large enterprises, 80% of SAP's user base consists of small to medium-sized businesses (SMBs). The ongoing migration to SAP S/4 HANA presents widespread career opportunities, especially for IT professionals aiding the transition from the earlier version, ECC, as support for ECC is slated to cease in 2027, mandating upgrades for all users.
