OIL & GAS

COURSE

COURSE INTRODUCTION

Entri's Oil and Gas Course is one of our top programs, specially created for people interested in a great career in the oil and gas industry. It's perfect for those who dream of well-paying jobs in India and around the world.

Our 'Oil and Gas Course' is not your typical classroom experience. It's a complete training program that prepares you with the skills and knowledge you need to succeed in the exciting world of oil and gas. You'll get to put what you learn into practice in real-life situations, making your learning experience even more valuable and boosting your chances of landing a great job.

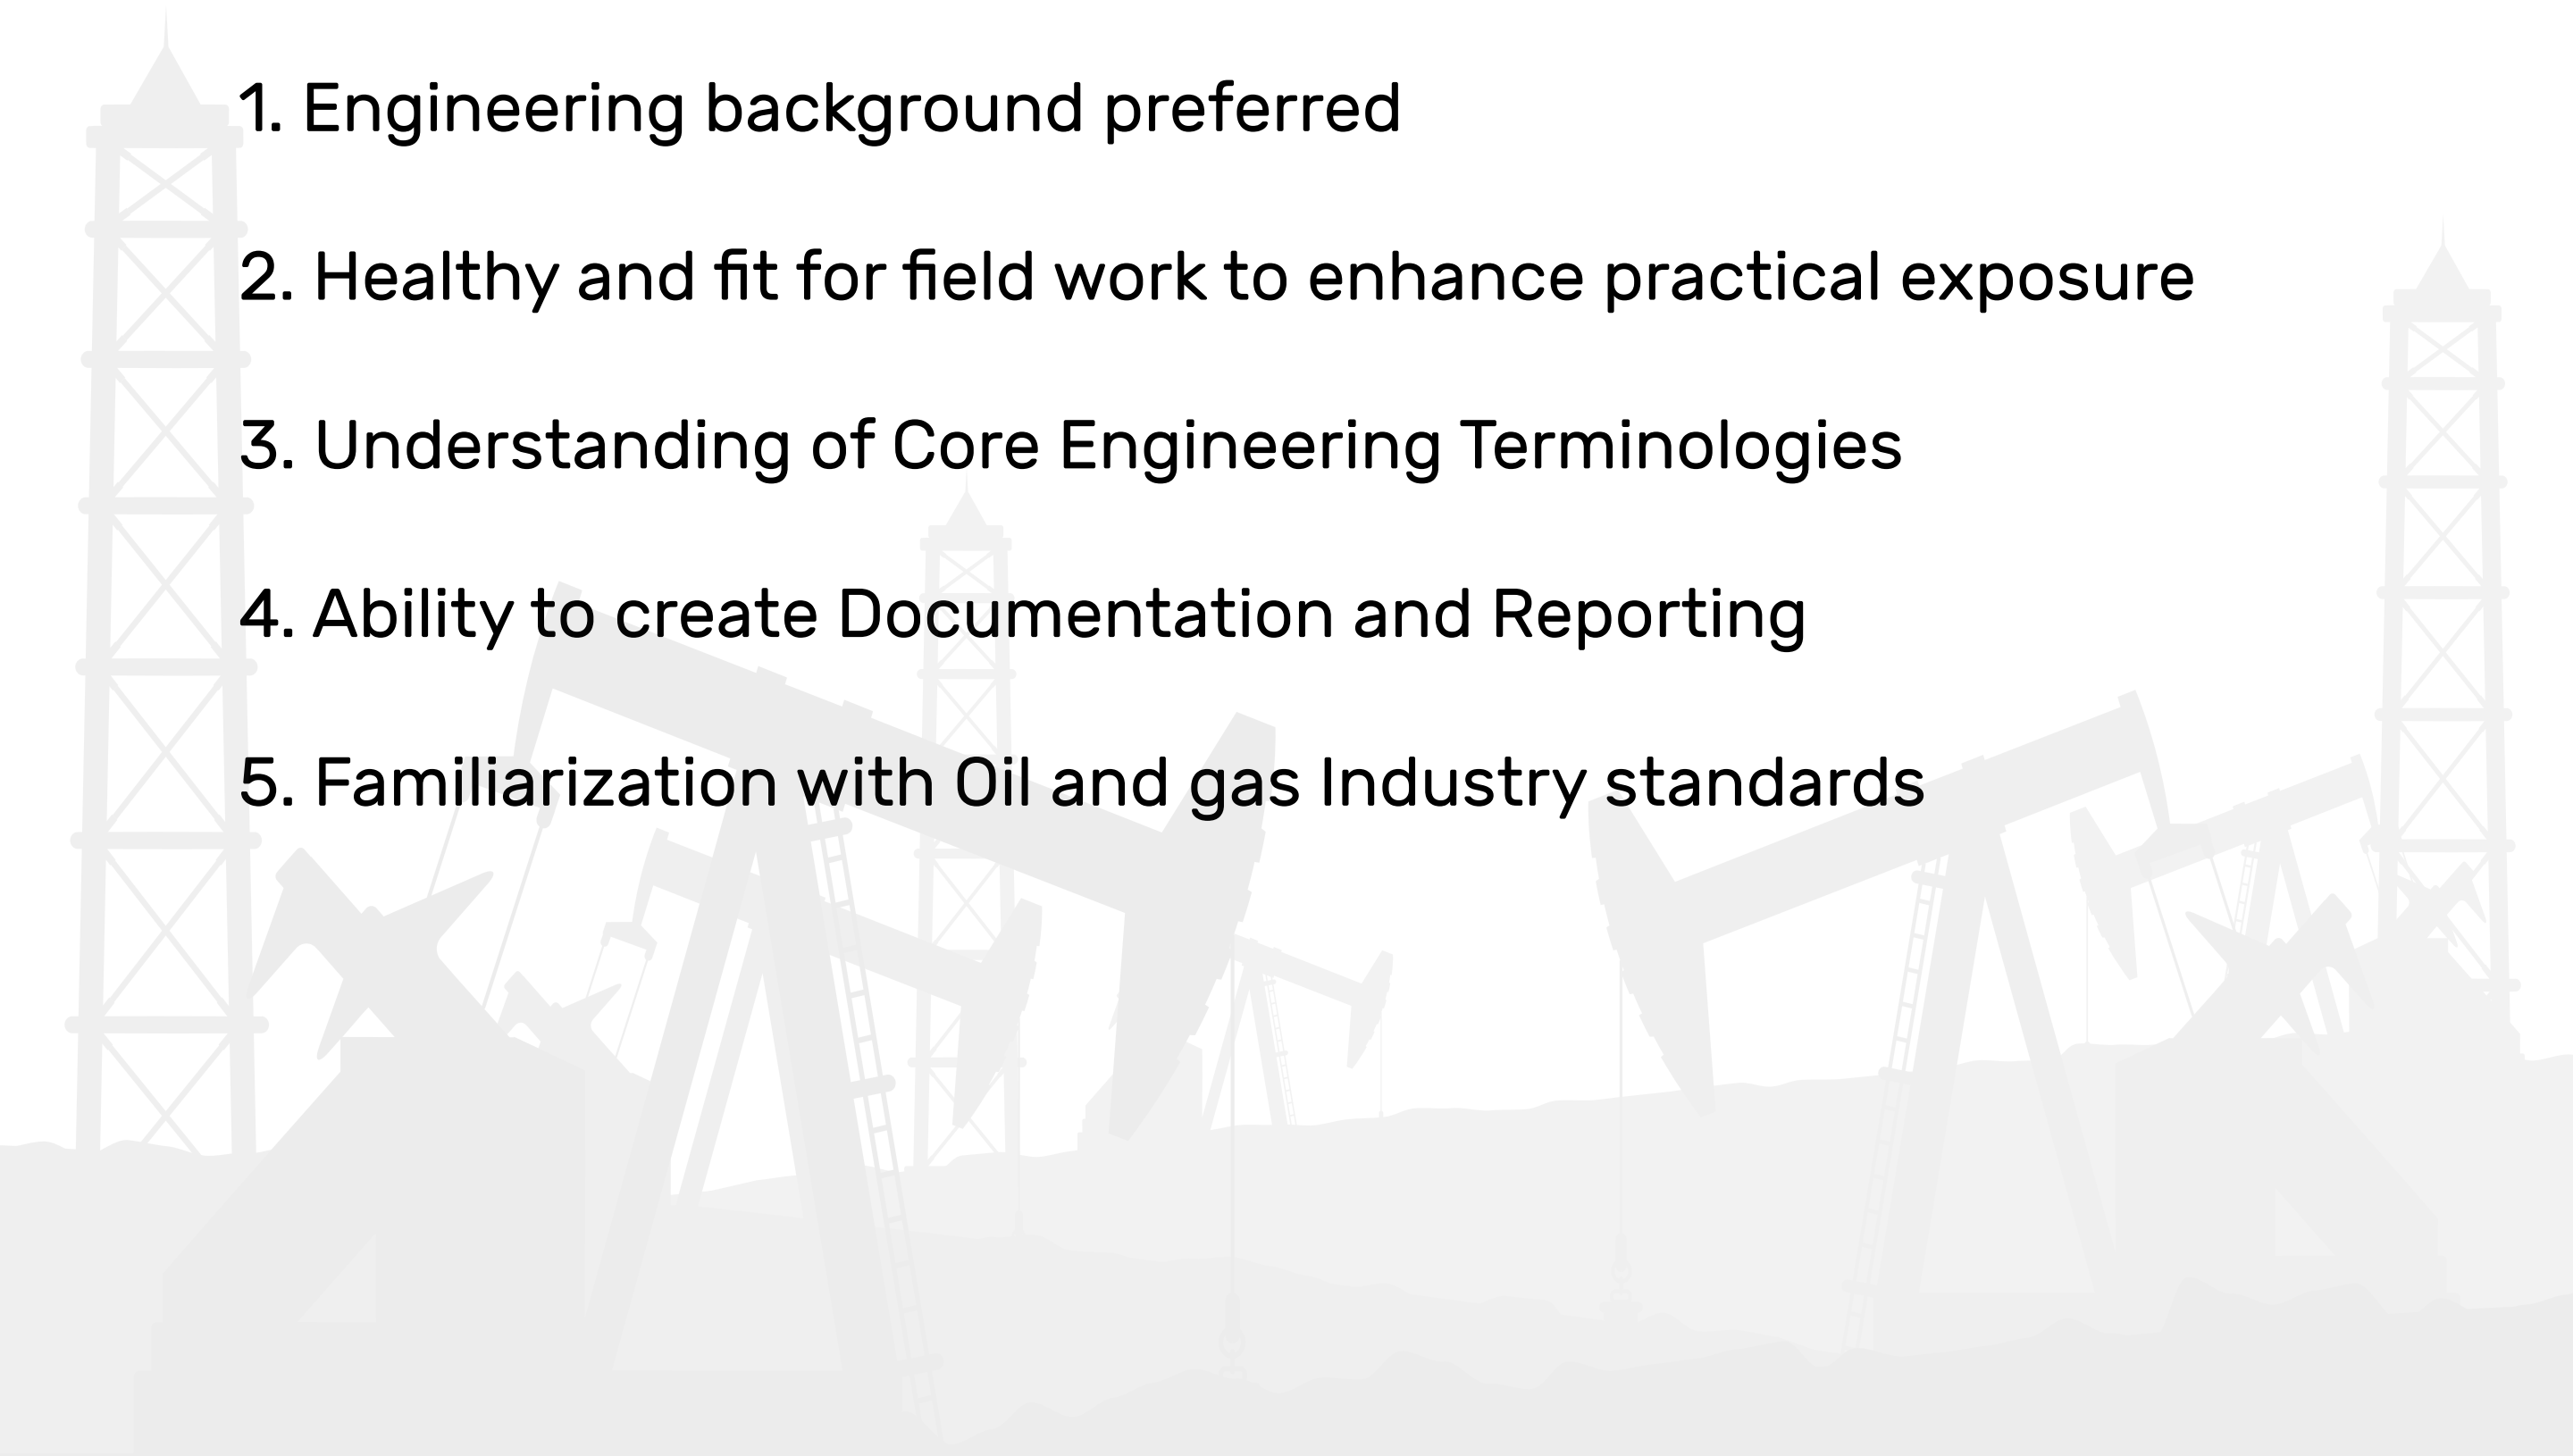

OIL & GAS JOBS

ENTRY LEVEL ROLES

1. Roustabout
2. Field Engineer
3. Field Specialist
4. Bunker Quantity Surveyor
5. Oil cargo Inspector
6. Hydrocarbon Lab Analyst

SKILL SETS

REQUIRED

1. Engineering background preferred
 2. Healthy and fit for fieldwork to enhance practical exposure
 3. Understanding of Core Engineering Terminologies
 4. Ability to create Documentation and Reporting
 5. Familiarization with Oil and gas Industry standards
- 
- A faint, light gray background illustration of an oil field. It features several pumpjacks (jack-o'-lanterns) in various stages of operation, and tall, lattice-structured towers or derricks. The scene is set against a light, hazy sky, suggesting an industrial landscape.

OUR KEY DIFFERENTIATIONS

1. Training by Industry Professionals

Sessions are conducted by industry professionals with over 15 years of experience, who have worked at Weatherford, Halliburton, Maersk, Wärtsilä, JB Boda, Geochem, as well as practitioners from around the world

2. Industry Interaction Sessions

Students will get the opportunity to interact with industry leaders from the Middle East, EU and US to understand career opportunities and path

3. Live Projects

Students will work on real ongoing projects from the Middle East, US and EU

4. Job-Oriented Curriculum

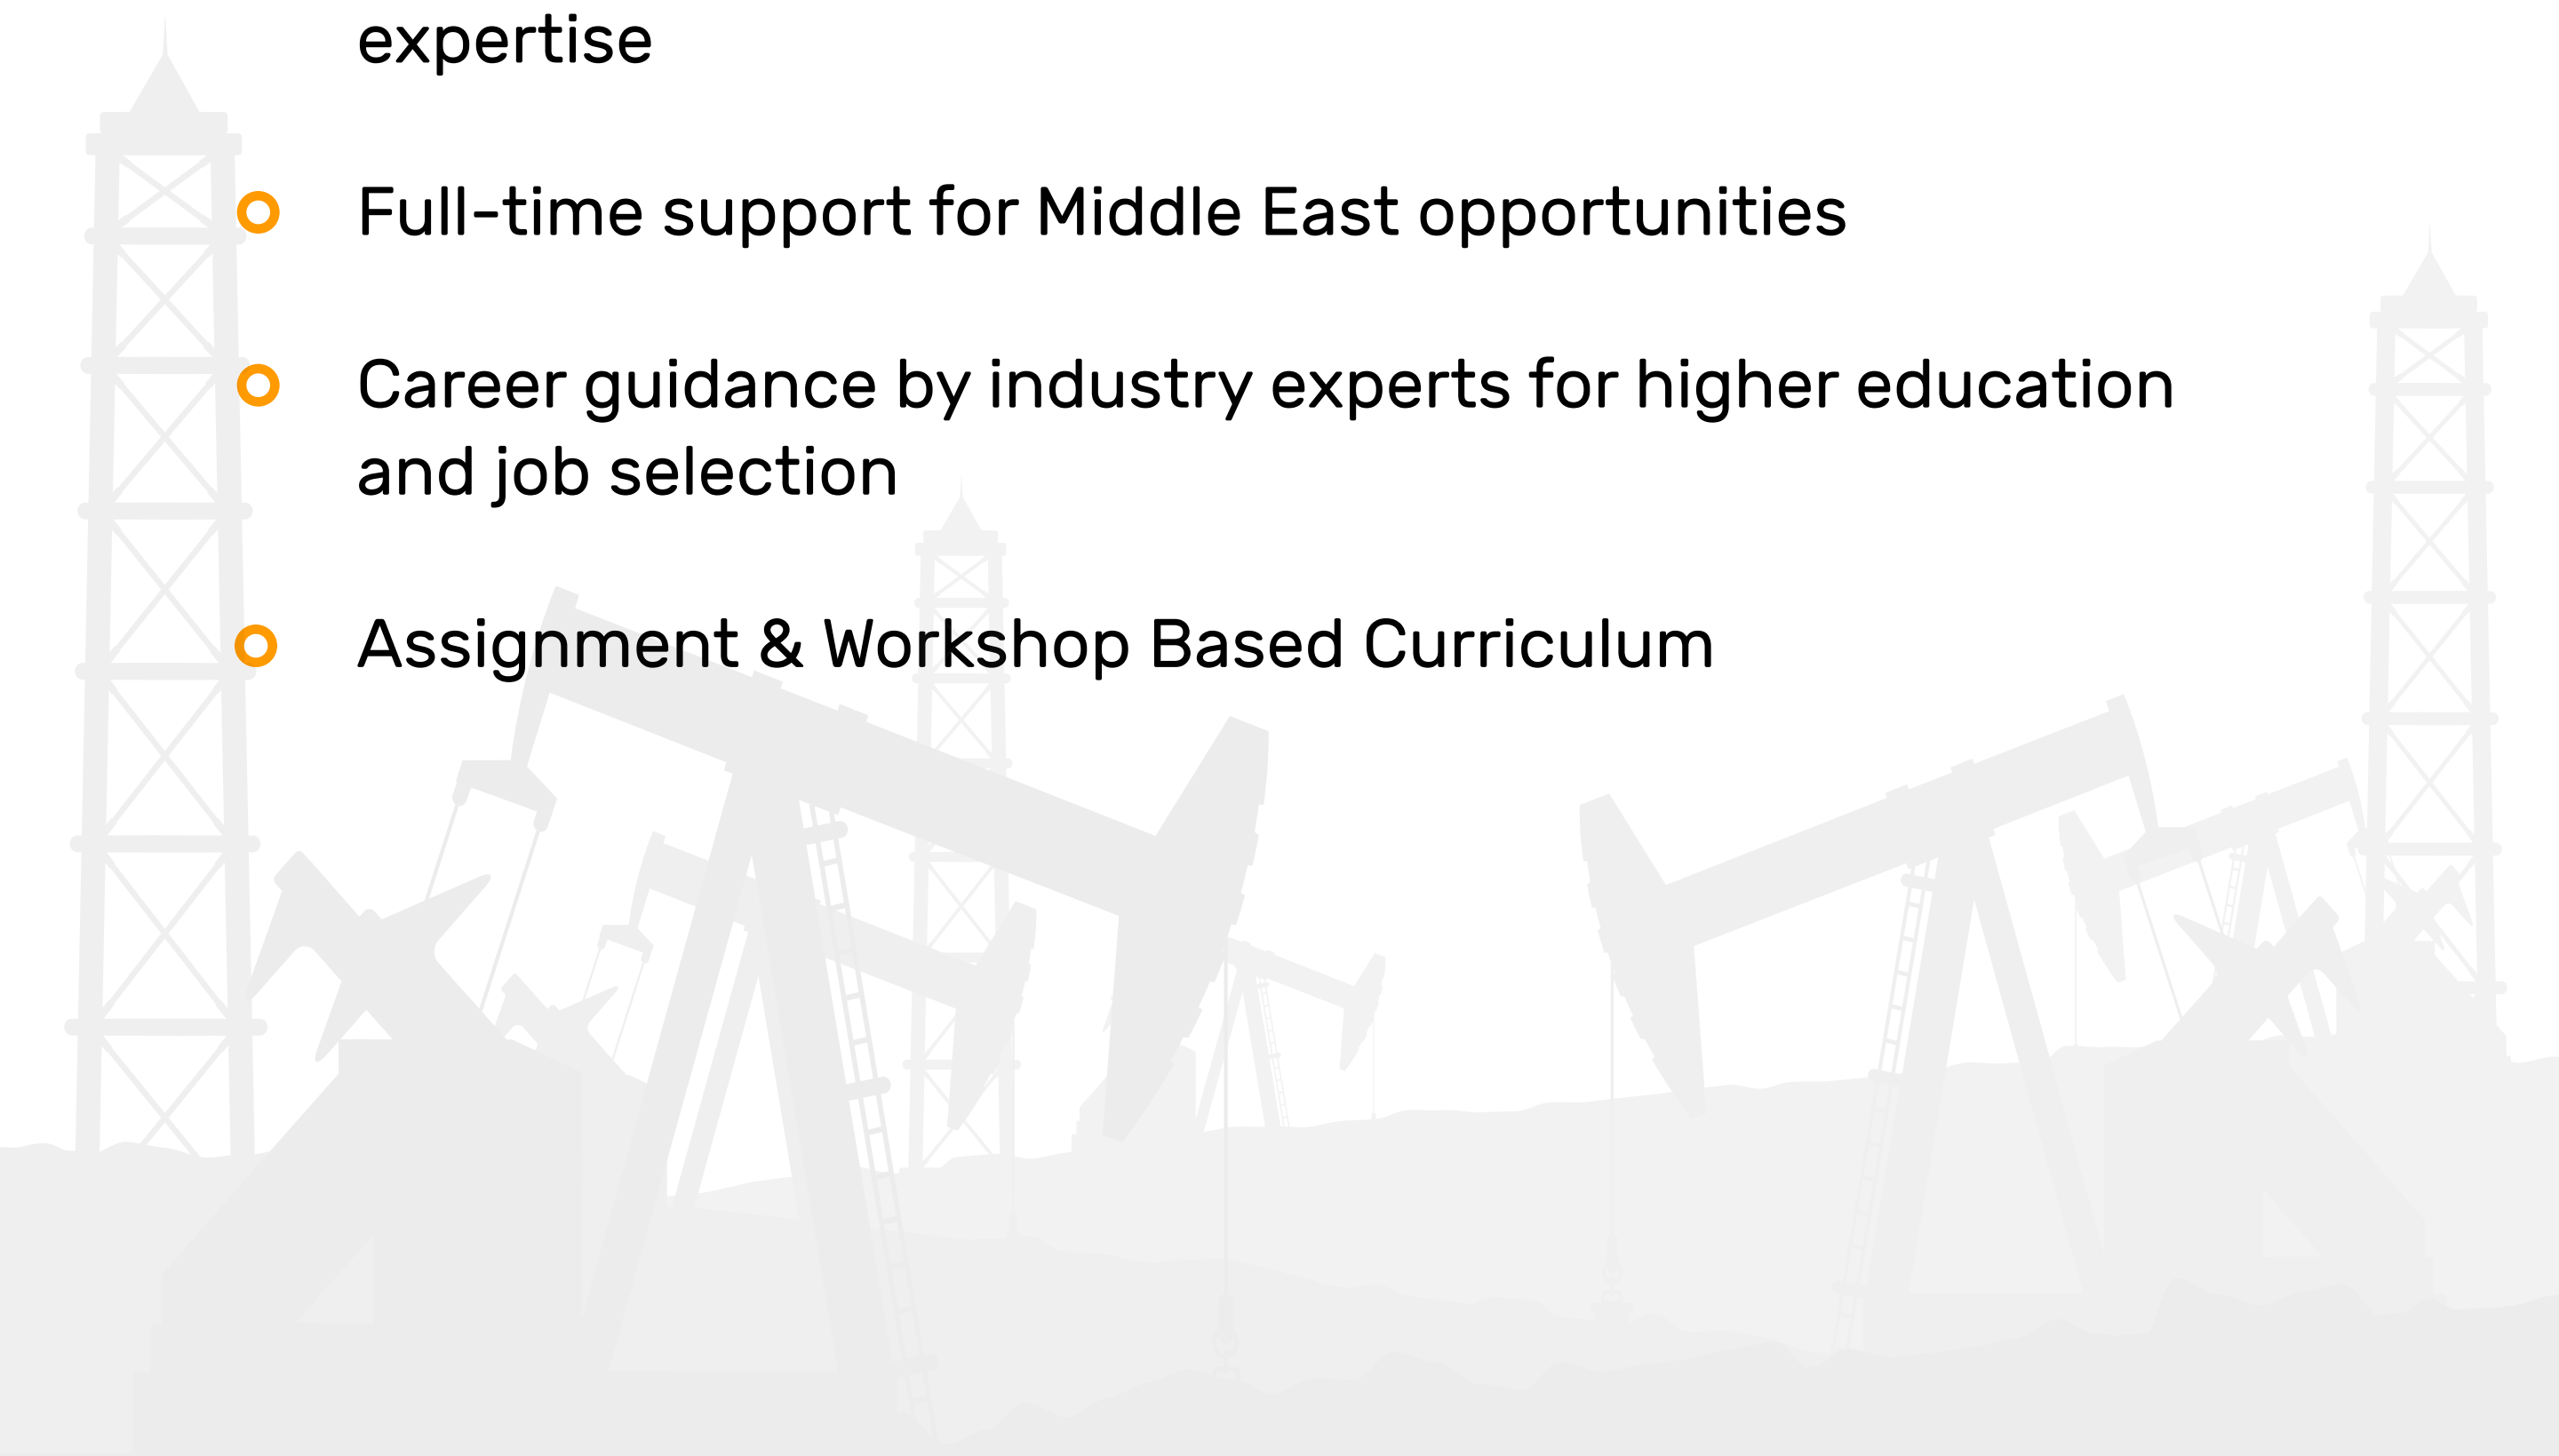

The training program is designed to assist students in acquiring the necessary theoretical and practical skill sets to crack interviews. It is packed with 20+ job assignments (mimicking real work scenarios) and workshops along with internships (for select students) as required

5. Full Time Assignment Support Team

Field experts will be available on demand for doubt clearance and assistance in completing assignments. A diligent course mentor will make continuous follow-ups and ensure students complete assignments on time

EXTRA FEATURES

- Theoretical foundation & practical knowledge
- Trainers from the world's leading Oil and gas companies such as Maersk, Weatherford, Halliburton, SGS, Intertek, and other firms
- Customized modules to suit your education, aptitude and expertise
- Full-time support for Middle East opportunities
- Career guidance by industry experts for higher education and job selection
- Assignment & Workshop Based Curriculum

OUR TRAINERS

✓ **Dones D'Silva**

(IFIA TIC council member) (UAE)

Exp: 20 years across UAE, India with JB Boda , Geochem .
Petroleum Cargo Custody Transfer specialist

✓ **Er. Nijas M Schemnad**

(UAE) ; BS Marine Engineering / MS Petroleum engineering
(heriot-Watt -UK)

Exp: 10 years onboard Tanker & LNG vessels , worked with
Shell , Maersk , Mitsui OSK ; 8 years handling Projects &
business development ashore .

✓ **Er. Rashid CMP**

(Qatar) ; BS Chemical Engineering (NIT India) / MS Petro-
leum engineering (heriot-Watt -UK)

Exp: 10 years onboard in oil and gas division handling
techno-commercial consulting with SLB, Halliburton and
NPS for TotalEnergies, Shell, QatarEnergy, QatarGas, Saudi
Aramco, North Oil Company and Chevron

✓ **Er. Arjun Kutty**

(Qatar) ; BS Mechanical Engineering (MIT India) /
MS Petroleum engineering (heriot-Watt –UK)
Exp: 10 years onboard in oil and gas division
handling all technical requirement to meet
hydrocarbon well performance and production
targets

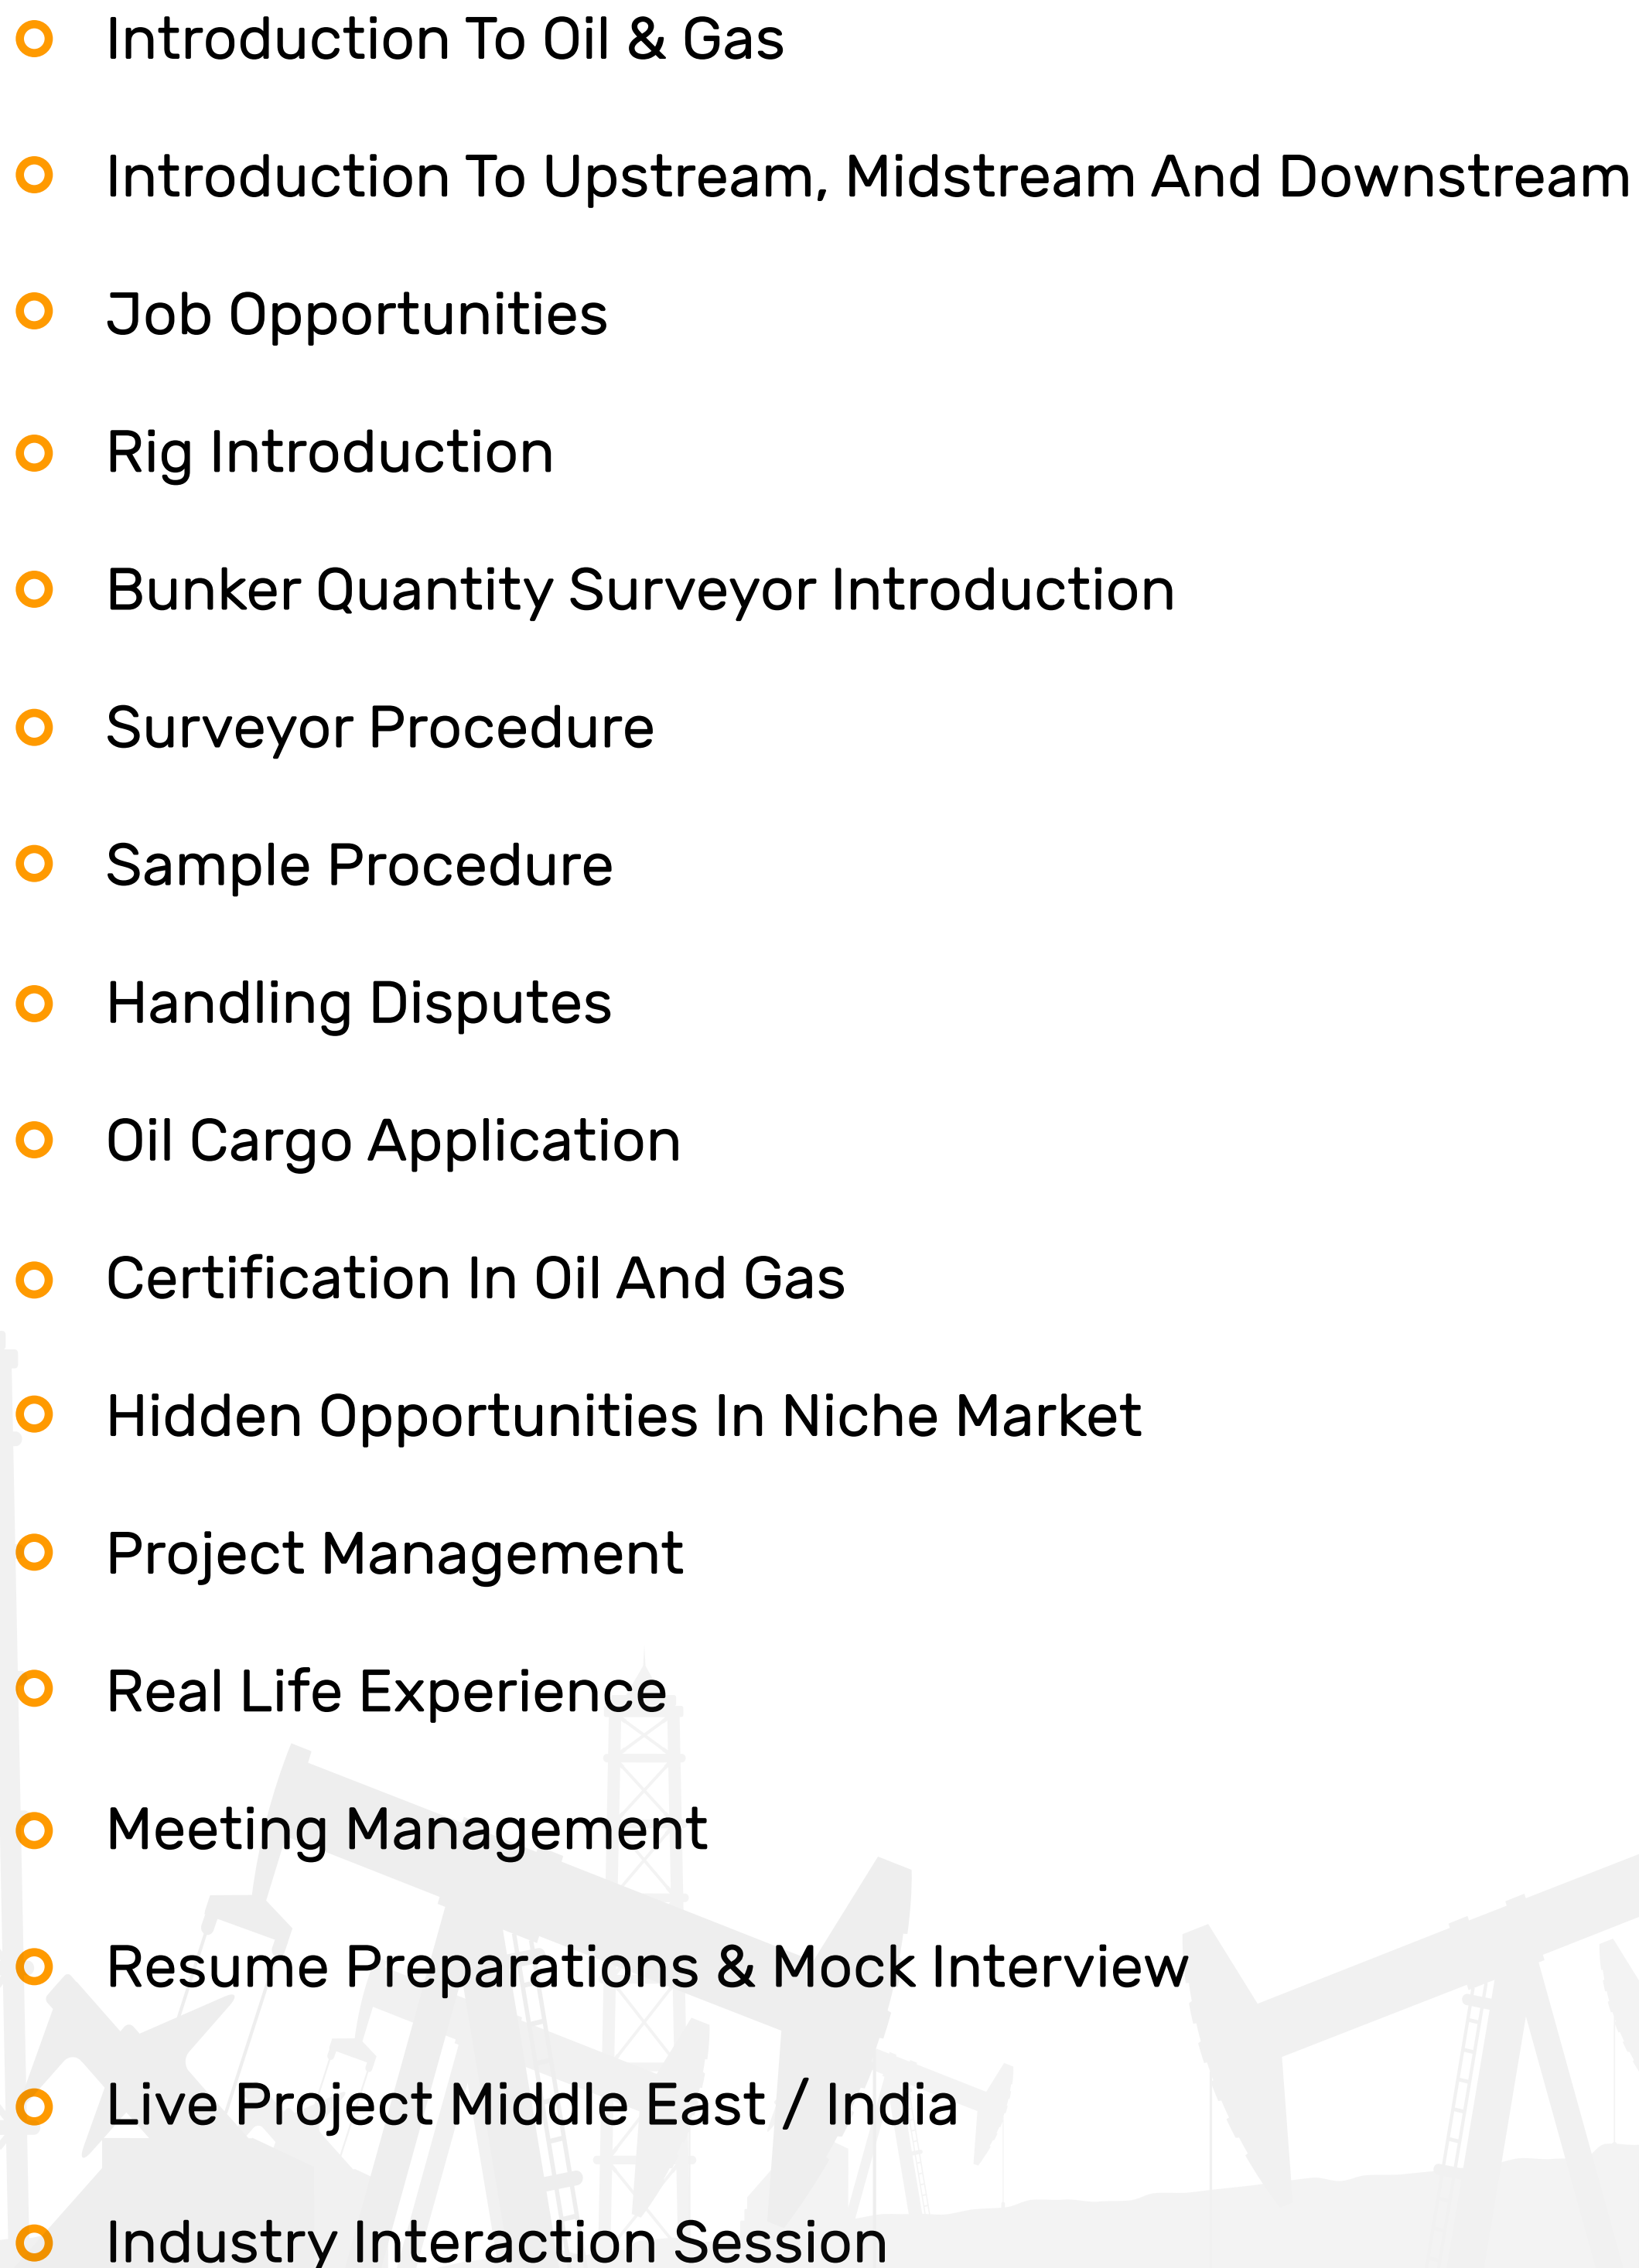

✓ **Er. Thomas Jacob**

(India); BS Mechanical Engineering / MS Petroleum
Engineering (Heriot-Watt –UK)
Exp: 10 years onboard in the Oil and gas division with
Baker Hughes; 8 years handling Projects and business
development ashore.

COURSE MODULES

(40 HOURS)

- Introduction To Oil & Gas
 - Introduction To Upstream, Midstream And Downstream
 - Job Opportunities
 - Rig Introduction
 - Bunker Quantity Surveyor Introduction
 - Surveyor Procedure
 - Sample Procedure
 - Handling Disputes
 - Oil Cargo Application
 - Certification In Oil And Gas
 - Hidden Opportunities In Niche Market
 - Project Management
 - Real Life Experience
 - Meeting Management
 - Resume Preparations & Mock Interview
 - Live Project Middle East / India
 - Industry Interaction Session
- 
- The background of the slide features a stylized, light gray illustration of an oil field. It includes several pumpjacks (oil pumps) and tall, lattice-structured towers, likely representing drilling rigs or processing units. The scene is set against a light, hazy background, suggesting an industrial landscape.

THANK YOU
