

## World Hemophilia Day Quiz

1. When is World Hemophilia Day observed every year?
  - a) April 7
  - b) April 17
  - c) May 1
  - d) March 17(Answer: b) April 17)
2. Who founded the World Federation of Hemophilia (WFH)?
  - a) Alexander Fleming
  - b) Frank Schnabel
  - c) Marie Curie
  - d) Karl Landsteiner(Answer: b) Frank Schnabel)
3. In what year was World Hemophilia Day first celebrated?
  - a) 1978
  - b) 1989
  - c) 1993
  - d) 2001(Answer: b) 1989)
4. What is hemophilia primarily caused by?
  - a) High blood pressure
  - b) Viral infection
  - c) A deficiency in clotting factors
  - d) Lack of red blood cells(Answer: c) A deficiency in clotting factors)
5. Hemophilia A is caused by a deficiency in which clotting factor?
  - a) Factor IX
  - b) Factor VII
  - c) Factor V
  - d) Factor VIII(Answer: d) Factor VIII)
6. Hemophilia B is also known as:
  - a) Classic hemophilia
  - b) Christmas disease
  - c) Von Willebrand disease
  - d) Acute clotting disorder

(Answer: b) Christmas disease)

7. What type of genetic inheritance pattern does hemophilia follow?

- a) Autosomal dominant
- b) Autosomal recessive
- c) X-linked recessive
- d) Y-linked dominant

(Answer: c) X-linked recessive)

8. Which of the following is a common symptom of hemophilia?

- a) Frequent nosebleeds
- b) Uncontrolled bleeding after injury
- c) Joint swelling and pain
- d) All of the above

(Answer: d) All of the above)

9. Which protein helps blood to clot and is deficient in people with hemophilia?

- a) Hemoglobin
- b) Albumin
- c) Clotting factors
- d) Platelets

(Answer: c) Clotting factors)

10. Which diagnostic test is commonly used to detect hemophilia?

- a) Blood sugar test
- b) CBC (Complete Blood Count)
- c) Coagulation factor assay
- d) X-ray

(Answer: c) Coagulation factor assay)

11. What is the standard treatment for hemophilia?

- a) Antibiotics
- b) Chemotherapy
- c) Replacement therapy with clotting factor concentrates
- d) Surgery

(Answer: c) Replacement therapy with clotting factor concentrates)

12. Which organ is most commonly affected by bleeding in hemophilia patients?

- a) Brain
- b) Lungs
- c) Joints
- d) Heart

(Answer: c) Joints)

13. Which of the following is a rare but serious complication of hemophilia treatment?

- a) Liver failure
- b) Inhibitor development (antibodies against clotting factor)
- c) Diabetes
- d) Asthma

(Answer: b) Inhibitor development (antibodies against clotting factor)

14. Which of the following is NOT a type of bleeding disorder?

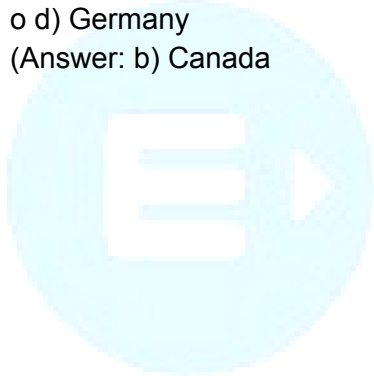

- a) Hemophilia A
- b) Hemophilia B
- c) Von Willebrand Disease
- d) Anemia

(Answer: d) Anemia)

15. The World Federation of Hemophilia is headquartered in which country?

- a) USA
- b) Canada
- c) United Kingdom
- d) Germany

(Answer: b) Canada
