

Integrated Trading Course

Course Duration

5 Months + Life time community
membership

About Us

Entri is the #1 vernacular learning app in India that helps you find a job. With over 1.5 cr students across the country, entri has educational content in 5 regional languages including Malayalam. Since its inception in 2017, entri has branched out to a number of up-skilling courses in regional languages, following the success of its initially launched courses for test preparation.

About Course

This program equips you with the essential knowledge and strategies to master financial markets, whether you're a complete beginner or an intermediate trader.

We start from the basics of the stock market and gradually move to advanced techniques in stocks, equities, and commodities.

Along the way, you'll gain practical skills and access to a vibrant trading community to support your growth.

The Forex module opens the door to the world's largest financial market, ideal for students and working professionals alike. With strategies tailored for consistent results, you'll learn to trade with confidence.

By the end, you'll have a well-rounded skill set in both stock and Forex trading, ready to take on the markets and work toward financial freedom.
