## Mintu Kurian (From Ireland, Student)

I am currently doing my third subject in zivet. I passed the last two papers in the first attempt. Zivet provides very good classes with good faculties and affordable fees. Since there is also recorded classes, we can watch the class according to our time. Now I am doing kashif sir's SBL paper. It is a very good thing that, he personally evaluate all the assignments we do and give recommendations also.

## Lekshmi Prasad (From India, Student)

I have finished my papers with Zivet and I personally feel it's really a good institution with good faculty and affordable fee structure. I have attended Kashif sir's class and the class is really good and is so convenient since it is recorded class we can watch lectures at our own timing. The thing that I like about the class is that sir give feedback about the assignments that we send so we know where we need to improve.

Through zivet and it's environment felt like my dream (ACCA) becoming achievable. Their faculties are very friendly and supportive which adds fuel to my results. The courses are available at a cheap rate but not compromising on quality or any corners of teaching.
