

AI FOR ALL

AI For All ✨

About

AI for All is a comprehensive, hands-on course designed to help learners understand and apply Generative AI tools across content creation, automation, and development. From mastering conversational AIs like ChatGPT, Gemini, and Claude to exploring creative tools such as Canva, Gamma, and Midjourney, this program empowers you to harness AI for design, automation, and innovation. Learners will also gain practical experience through mini projects, assignments, and mock interviews—ensuring both conceptual clarity and real-world readiness.
