PROGRAM IN INDIAN STOCK MARKET

Course Duration

3 months + lifetime community membership

SEBI Compliant Finance

Education Platform

About Us

Entri is the #1 Vernacular learning app in India that helps you find a job. With over 9 million students across the country, Entri has educational content in 5 regional languages including Malayalam. Since its inception in 2017, Entri has branched out to a number of upskilling courses in regional languages, following the success of its initially launched courses for test preparation.

About the Course

In the Stock Market course, we focus on bridging the gap between theory and real-world trading. You'll gain practical knowledge that helps you confidently apply concepts in live market conditions and work toward consistent performance.

In the Mutual Fund course, this end-to-end course covers everything from the fundamentals of mutual funds to learning how to independently research, analyze, and select mutual funds that best suit your financial goals and risk profile.

By the end of this course, you will have the clarity, confidence, and practical skills needed to trade smartly, invest wisely, and take meaningful steps toward long-term financial freedom.

What Will You Get?

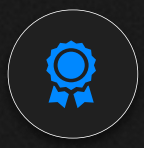

- Understand the basics of mutual funds and the stock market.
- Types of mutual funds and the purpose of each.
- How to research funds, tools to do it.
- Compare different investment options and understand which suits you best.

Course Highlights:
